61ST YEAR

No. 134

LINCOLN, NEB., WEDNESDAY MORNING, MARCH 6, 1963

10 CENTS

STORM'S AFTERMATH

STAR PHOTO

Tuesday's wet snow was perfect for building snowmen, though one group of young men went a step further and created a snow statue of Venus de Milo at the southwest corner of 13th and Garfield. Jerry Karlen is putting finishing touches on the head. Others didn't have as much fun Tuesday. See story on Page 3.

## GOLDEN GLOVES BOXER IS SHOT

Mrs. Karen Goodteacher, 21, was being questioned by county authorities early Wednesday morning in connection with the shooting of her husband, Eddy Goodteacher.

Goodteacher, 18, of 1344 D., was undergoing surgery at Bryan Memorial Hospital with bullet wounds in his abdomen and near one eye.

Deputy County Attorney Ron Lahmers told The Star that Mrs. Goodteacher had admitted owning the pistol with which her husband was shot.

Lahmers said he had not determined whether Goodteacher or his wife was holding the pistol when it went off.

Also questioned was a 16-year-old Lincoln boy. Lahmers said, however, that he

EDDY GOODTEACHER

was "just a passenger who happened to be along" with the Goodteachers. The boy was released to his mother about 1:30 a.m. Wednesday.

The shooting apparently occurred in the Goodteacher car near 84th and Leighton Ave. shortly before 11 p.m. Tuesday.

Goodteacher's wounds were reported about 11 p.m. Tuesday by Mr. and Mrs. Henry Paap of 8001 Leighton Ave.

Paap told The Star that a man staggered onto the back porch of their lonely farm home, crying, "I've been shot, I've been shot."

Paap called an ambulance and the sheriff's office. He also called a neighbor, Leonard Davidson of 7921 Leighton Ave., who drove to the Paaps' to help.

On his way Davidson saw a couple driving slowly west along Leighton. They asked him if he had seen a man walking; he said he hadn't.

At the Paaps', Davidson told Deputy Sheriff William Greiner about the couple in the car. Greiner and Deputy John Spieker found the couple—Goodteacher's wife and a 16-year-old boy.

**Known As Phillips**  
Goodteacher fought as a Golden Gloves boxer under the name of Eddie Phillips. He has won Southeast District Golden Gloves titles the last 4 years.

Phillips was the Southeast District 112-pound champion this year, fighting out of the Larry Emery boxing camp.

## Sunday Journal Star Honors Mud Creek Area

By GLENN KREUSCHER  
Farm Editor

More than 8 years of community leadership in developing the state's "first special-purpose watershed district" was recognized Tuesday evening with presentation of "Watershed of the Year" honors to Mud Creek watershed of Gage County.

The award, presented annually by the Sunday Journal and Star, was made to Mud Creek Watershed Conservancy District directors at the 4th annual Watershed Workshop banquet at the Nebraska Center for Continuing Education.

The Mud Creek district received a permanent recognition plaque, certificates recognizing individual contributions and a \$150 cash award to the District to send one or more members of the organization to the National Watershed Congress.

38,000 Acres  
The 38,000-acre Mud Creek watershed includes nearly

200 farms in Filley, Sherman and Rockford Townships in Gage County.

The Sunday Journal and Star, with more than a 10-year record of aggressive as-

sistance to watershed projects, has established the award to further assist the development of watershed districts and encourage Nebraska entries in the National

Watershed Awards competition.

Certificates recognizing their parts in Mud Creek district's success were presented to:

## Vast Rural Changes Forecast

"The most difficult adjustment will be for towns of this size. You can combine farms without too much loss of assets, but there is nothing you can really do with the small town that no longer serves future needs," said Clawson.

He estimated that the increase in farm size would find Nebraska with 20,000 farms instead of 85,000 at the end of year 2000.

Clawson spent more than 24 years in the USDA and Department of Interior prior to his present position.

Clawson told conservationists that while the future demands for land use for recreation would be high he was very much disturbed about the over-selling of recreation

as a profitable private income.

"Let me throw a little cold water on recreation. You encounter legal liabilities that have been nearly completely ignored and after you establish recreation it has to be maintained. It has possibilities but look it over pretty carefully before you consider everything associated with recreation as being profitable," said Clawson.

The three situations where he encouraged recreation use for land were:

—to first provide outdoor recreation for local citizens, such as offered by small watershed construction.  
—to attract some interest in hunting.  
—to furnish recreation for the vacation-bound tourist passing through Nebraska.

Dwight Dell of Beatrice, John G. Dorn of Filley, Lynn McKinzie of Holmesville, R. E. Dell of Filley, Ed Weiss of Virginia, Bob Norton of Filley, Lowell Frantz of Holmesville, Chet Ellis of Liberty, Fred Garman of Liberty, Gene Cacek of Virginia, the Filley Bank, the Virginia Bank, the Filley Grange, and Farmers Union Local 817 of Holmesville.

The two-day Watershed Workshop, which began Tuesday, instructs contracting officers of watershed districts in problems associated with the districts.

Frank Foote, with the State Game Commission, in an opening address to the workshop, said water is basic to recreation in Nebraska.

He added that maldistribution of water in the state has been the basic problem confronting statewide recreation.

He termed the Salt-Wahoo Watershed program the only hope for quality bodies of water in the area and, he told watershed workers, the first two finished structures provided \$1.5 million in projects that came to the state at a cost of \$84,000 for associated recreation possibilities.—Adv.

proposal at the public hearing on LB391.

Following an executive session, Foster made copies of the proposal available to newsmen.

The tax would be levied at a rate of two mills per kilowatt hour of electricity sold at generation.

Revenue from the levy—estimated at \$12 million the first year—would be earmarked to local school districts on the basis of average daily membership.

The tax would increase the cost of electricity at the wholesale level by 10% to 20%, Foster estimated, resulting in an average residential customer boost of perhaps 50 cents a month.

**March Reduction**

The increase in power costs would equal about the amount of decrease in rates announced last week by Consumers Public Power District, Foster said.

The new proposal, the senator noted, does not raise constitutional questions contained in LB391 because the use tax would not be levied directly upon a governmental subdivision, that is the public power district itself.

**Safeway \$100 Winner**  
Wayne Buehrer, 3036 N St., Monday was the 2nd \$100 winner of Safeway's new "Spell C-A-S-H" game. It took 7 visits to Safeway Stores to do it. Why don't you start playing Safeway's exciting new game?—Adv.

**Magee's Coat Specials**  
Still time to save on a winter coat. Big savings on furred and untrimmed coats now! 3rd floor.—Adv.

# CUBANS COMPLAIN

—HORSES HIT HARDER—

## 4% Pari-Mutuel Tax Advanced

By DON WALTON  
Star Staff Writer

A bill to double the 2% state tax on pari-mutuel horse betting effective Jan. 1, 1964, was advanced to the floor of the Legislature Tuesday on a 4-2 vote of the Revenue Committee.

As amended, LB486, introduced by Sen. Terry Carpenter of Scottsbluff, would raise an additional estimated \$750,000 annually.

In other action, the committee killed on a 7-0 count LB588, a bill to boost the pari-mutuel tax to 3% and allocate one-third of the total revenue to Nebraska municipalities.

### Russillo Measure

The measure, sponsored by Sen. Michael Russillo of Omaha, would have provided cities with an estimated \$416,000 annually, including at least \$42,000 a year for Lincoln and a minimum of \$90,000 for Omaha.

Carpenter's bill—as drawn—would have increased the tax to 6% and added a 50% tax on race track breakage.

Race track operators, who opposed the proposal en masse, "would go along" with a tax boost to 3%, the committee was told.

### Not Hurt Ak-Sar-Ben

Such a 50% hike in the present rate "would not hurt us too bad," J. J. Isaacson of Omaha testified. Isaacson is general manager of Ak-Sar-Ben.

The state's 3 smallest tracks at Madison, Alliance and Mitchell would be endangered by a substantial increase, it was noted. Alliance's gross handle has decreased 13.9% since 1958, while Mitchell has fallen off 6.8%.

Warren Albert of Columbus presented figures showing the same volume of business at that city's track in 1962 as in 1959 despite a 20% increase in attendance.

Per capita betting average has dropped from \$53 to \$42 daily, indicating that "any tax on betting will curtail our operations," he said.

### Leaner Purse

Max Towle of Lincoln, representing breeders and owners, said the increase would result in a decrease in purses which now total \$848,000 annually for Nebraska horsemen.

State Fair Board Secretary Edwin Schultz raised a question of whether the increased tax "might curtail the State Fair and county fairs," all of which now benefit from horse racing.

Isaacson said Ak-Sar-Ben alone donates some \$384,000 a year to county fairs, scholarships and related activities.

But, in answer to a question from Carpenter, Albert Swihart of Grand Island—speaking for the Nebraska Thoroughbred Track Operators—told the committee that race track receipts "depend on economic conditions more than upon any taxes."

Russillo's bill drew particular fire from race track representatives because it would remove the present \$1 million exemption on pari-mutuel receipts.

"Cities must help," Russillo declared. "They are the ones who are hard put for funds."

The operation intentionally created a defect—a small window between two chambers of Duke's heart—to help doctors test the effects of such a condition.

Many children are born with the same type of defect.

DUKE . . . gets big hug from Jeffrey.

## Mongrel Pooch Research Hero

Portland, Ore. (AP)—A mongrel dog named Duke received Tuesday a special award by the National Society for Medical Research—"Research Dog Hero of The Year."

Duke, saved from the dog pound about a year and a half ago, underwent open heart surgery for a research team at the University of Oregon medical school.

Specialists from many fields of medicine—Surgeons, internists, cardiologists and radiologists—studied and treated Duke.

He recovered his vigor and health and Tuesday was feted for his part in the program.

Dr. Henry Harkins, of the University of Washington, representing the National Society for Medical Research, awarded Duke a monogrammed silver collar and gold trophy.

Later Duke left the medical school for a new home.

He will be with Mr. and Mrs. Melvin Salzwedel and their 3 young sons at their Cornelius, Ore., farm.

The dog will go there with 5-year-old Jeffrey Salzwedel, who like Duke, is recovering from open heart surgery.

Eighteen days ago the surgical team at the medical school performed the operation on Jeffrey, which the "Dukes" of the world have made possible.

Duke is the 15th animal to receive the award since 1948. The National Society for Medical Research was founded in 1946.

At a going away party at the hospital, nurses and doctors presented Duke and Jeffrey several gifts, including a cake.

The big black and brown dog eagerly went after it—a hamburger cake with hot dog candles.

## Accuse U.S. Of Slating Attack

. . . IN LETTER TO THANT

Havana (AP)—Cuba sent off a list of complaints against the United States to U.N. Secretary-General U Thant Tuesday. It accused Washington of planning an attack on Cuba that would engulf the world in thermonuclear war.

But the 4,000-word letter from Foreign Minister Raúl Roa carried a veiled offer to talk out differences in meetings with U.S. officials. Roa told Thant:

"There is no better way in a crisis such as this than peaceful negotiations and discussions between governments."

### Provocative

The letter, which Roa asked to be distributed to all U.N. delegations, spelled out what the Cubans called provocative acts and statements from the U.S. government, congressmen and Cuban exiles. It said the situation between the United States and Cuba has been deteriorating since the October Soviet missile crisis.

"Humanity sees itself enveloped again in an atmosphere of threats and tensions that could lead to a thermonuclear war," Roa said.

Further on in the letter, he charged that "steps are being taken presently by the United States to prepare aggression against Cuba."

### Spy Den

He said the U.S. Navy base at Guantanamo Bay is "a den of spies," saboteurs and counterrevolutionaries."

Coinciding with the announcement of Roa's letter, the armed forces ministry charged that the United States staged 6 incidents on land and sea around Cuba recently.

In one incident, the ministry said a U.S. Navy destroyer "had the insolence of advancing to meet a Soviet merchant vessel" as it approached Havana harbor.

### Saved

(A Havana radio broadcast heard in Key West, Fla., said that a Soviet merchant vessel saved two Cuban fishing boats from seizure by two U.S. destroyers. It said the Soviet ship protected the fishing boats by steaming in the path of the destroyers. The broadcast also claimed that 3 U.S. destroyers harassed another fishing boat elsewhere for more than 3 hours.

In Washington, a Pentagon spokesman denied the broadcast report and said: "we have no knowledge of any such incidents. No Navy destroyer has attempted to capture any Cuban fishing

The Budget Committee is scheduled to meet in Omaha Wednesday to examine the College of Medicine's physical plant.

### Feels 'Frustrated'

Carpenter said he is "frustrated" by recent action taken by a group of Omaha doctors who oppose building plans promulgated by the college, thus having "endangered" passage of the bill.

The measure, LB26, currently resting in the Revenue Committee, would increase the present .25 mill special levy to a full mill in 1964 and 1965, and a .50 mill thereafter until 1970.

University officials have unveiled plans to use part of the money to build a new 200-bed University Hospital, which would later be expanded to 300 beds.

The Omaha doctors group opposes construction of a new hospital, favoring expansion and modification of present facilities.

The College of Medicine is on the verge of losing accreditation on account of its deteriorating physical plant, it has been reported.

### 'Might Be Healthy'

"It might be a healthy thing if it was discredited," Carpenter declared. "Then we could establish once and for all time whether we want a medical school."

The state should have "nothing or the best," he insisted.

The conflict over building plans is "a sad commentary on the medical profession and a reflection on its professional ethics," Carpenter said.

### THE WEATHER

# FRENCH CHIEF 'HOPPING MAD'

**Bidault's TV Talk Triggers Fresh Crisis**

London (UPI) — Former French premier Georges Bidault's statement on British television that his underground terrorist group could and would overthrow the "Fascist regime" of President Charles de Gaulle exploded Tuesday into a new Anglo-French crisis.

De Gaulle was reported "hopping mad" that Britain and the British Broadcasting Corp. would permit the statement to be made on British soil by the leader of a French terrorist group pledged to assassinate the French president. The Anglo-French rift was widening rapidly.

Bidault said his underground Council of National Resistance (CNR) was plotting De Gaulle's overthrow and he was confident it would succeed. BEC transmitted the interview at peak viewing time in the 30 minutes starting at 8:25 p.m. when the program Panorama claims 9 million viewers.

**Angry Clash**

The political and diplomatic packed in the Bidault interview rocked government offices in both London and Paris and touched off an angry parliamentary clash between Prime Minister Harold Macmillan's Conservatives and the opposition Labor Party.

The interviewer on the show, Roderick MacFarquhar, made it clear the BBC regarded Bidault as a "lonely old man" fighting a lost cause. A BBC commentary said a successful attack on De Gaulle would lead only to political chaos and the accession of a "very dangerous fascist" regime.

Bidault, well-known World War II French underground resistance leader, dodged questions about whether terrorist methods would be used to achieve the CNR aims. But his organization has made several threats to kill De Gaulle and 3 men claiming to be members of the CNR were sentenced to death Monday night in Paris for an attempt last Aug. 22.

**Annoyed**

French government sources said no official protest would be made since the government-financed BBC follows an independent editorial policy but that the French ambassador would raise the matter and seek an informal explanation. But both official and unofficial annoyance was obvious.

The Liberal Paris newspaper *Le Monde* hinted the interview was an "act of vengeance" in retaliation for De Gaulle's veto of Britain's aid to enter the European Common Market—a move that produced a major rift.

## Slain Missionary's Wife Will Continue Her Work

Saigon, South Viet Nam (UPI) — The widow of an American missionary murdered before her eyes Monday with a Filipino missionary and the Filipino's 4-month-old daughter said Tuesday she would continue her missionary work in South Viet Nam.

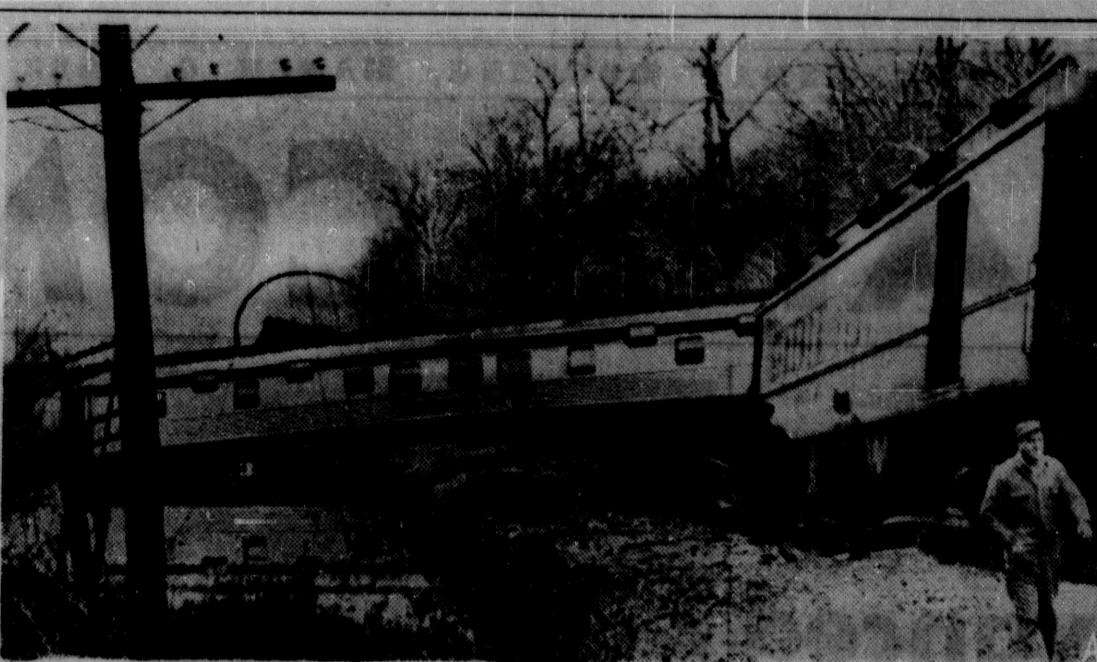

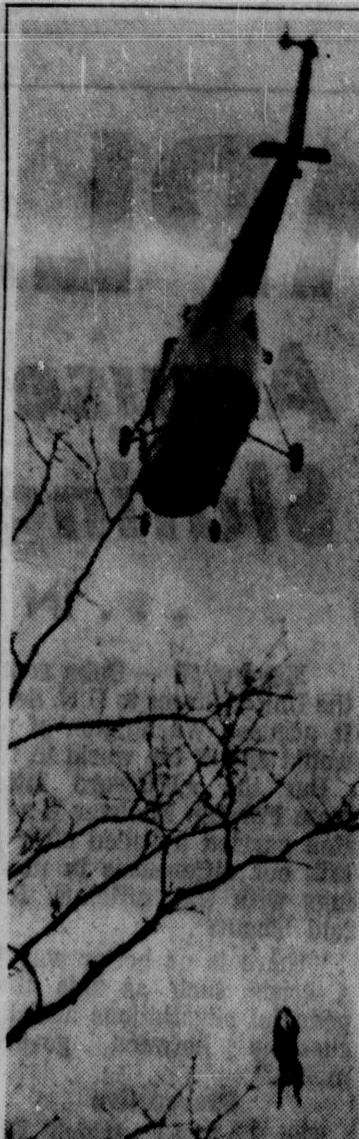

Mrs. Vurnell Jacobsen, widow of Elwood Jacobsen of Foreston, Minn., made the statement after government troops failed to find the Communist guerrillas who shot her husband and Filipino missionary Gaspard Makil.

Makil's American-born wife Josephine, formerly of La Junta, Colo., said she had not yet made up her mind about staying here. Her 4-month-old daughter, one of twins, died in a hospital from gunshot wounds. Her 3-year-old son was shot in both legs but doctors said he was improving after surgery and is expected to live.

The slayings occurred when the missionaries were stopped at a Viet Cong road-block.

The missionaries were working to translate the Bible into the Vietnamese language for the Sumner Linguistic Institute and were not directly connected with a church.

(In Hong Kong, a Catholic weekly reported from Saigon that Communist authorities in North Viet Nam are stepping up a campaign against the Roman Catholic Church, and have arrested one of the

## OHIO RIVER RAMPAGING

. . . Toll Grows As More Families Forced Out

Wheeling, W.Va. (UPI) — A muddy, angry Ohio River swelled toward flood stage from Wheeling southward into Kentucky Tuesday night as rain and thaw-swollen tributaries poured in more water than it could take.

The count of casualties in people, homes and facilities mounted as subsidiary streams in West Virginia, Ohio and Pennsylvania dropped, leaving mud, ice jams and devastation in their wake. The forecast was for more rain downriver, extending the danger area as far as Cincinnati.

The swirling backwaters had claimed at least 5 lives—3 in West Virginia and two in Ohio—by Tuesday.

**800 Families**  
More than 800 families had been driven from lowland and valley homes in the 3 states. About that many more had retreated to upper stories to sit out the torrents of water and mud.

**Bridges and secondary roads** were out or blocked across a wide area of the Ohio rivershed. Train schedules were disrupted and one passenger train locomotive was tumbled into a creek.

National Guard troops and military reserve units pressed trucks and other equipment into service to assist flood stricken families.

**Mobilized**  
Civil defense groups were mobilized in several communities to help in rescue efforts.

The national Red Cross sent some 50 disaster workers into the flood zone to assist local chapters. Disaster shelters were opened to house and feed flood refugees.

A Baltimore and Ohio railroad passenger train was derailed near Chillicothe, Ohio, Tuesday. One woman passenger suffered a heart attack. Evacuation of the woman and other passengers was hampered by high water of the north fork of Paint Creek.

**Collapsed**  
Railroad officials said they had a report the embankment on which the tracks were laid collapsed under the heavy rain.

### Reds' Cosmonaut Badge Created

Moscow (UPI) — The Soviet Union announced Tuesday creation of a new cosmonauts' badge, showing that those who have gone into orbit will make future space flights.

The badge has 3 grades, 3rd class for those making one flight, second class for two flights, and first class for those making 3 flights.

**Rescuers OK**

A helicopter from Wright-Patterson Air Force Base hauls 17-year-old Charles Henderson to safety, top photo, after he and 15-year-old Robert Page, both of Xenia, Ohio, spent Monday night clinging to a tree after flood waters capsized their boat. The boys, Henderson, center, and Page, bottom, rested Tuesday in a hospital. They had started out in their boat to rescue some calves from the flooding Little Miami River. The calves made their way to safety while the boys were getting stranded.

# Beaver Crossing Cow Wins Multiple Competition Honors

A purebred Holstein cow, owned by the Phillips Bros. of Beaver Crossing, took multiple honors at the annual Nebraska State Dairymen's Association meeting here Tuesday.

Valla Vista Macy Beauty Posch, a 13-year-old Holstein, owned by Phillips Bros., was

named outstanding Cornhusker Beauty, Cornhusker Brood Cow and the winner of Cornhusker Dams of Production. The winning cow was previously honored by the Holstein-Friesian Association in 1962 with a gold medal award. In 11 lactations she has an average of 566 lbs. of

butterfat on a 305 day test and her 6 daughters range from 409 to 765 lbs. butterfat on test in the Phillips herd.

Pawnee Farm Man-O-War Lois, the second place winner, has averaged 660 pounds of butterfat in 6 lactations. She placed 5th in type and 6th in production.

The 1963 Meritorious Life-time Production award went to a grade Holstein, Germast, owned by John E. Cander of Humboldt with production of 214,920 lbs of milk and 6,981 lbs. of butterfat in 4,299 days.

Other top cows and their owners included: Wilbur G. Ginger Piebe Ormsby, a purebred Holstein owned by Willis Armbrust, Millard, second; Bea-Neb Paula Dunloggin Bonheur, a purebred Holstein owned by the Beatrice State Home, Beatrice, 3rd; Valla Vista Carey Sue, a purebred Holstein owned by Phillips Brothers of Beaver Crossing; 4th; Valla Vista Macy Beauty Posch, owned by Phillips Brothers, 5th.

A Jersey cow owned by Robert Nauman of Lincoln captured first place in the 1962 Nebraska jersey production contest.

## Three Men File For City Council Positions

Three candidates filed Tuesday for City Council.

The first to file officially was Rudy Glanz of 4316 D.

He was followed by John C. Mason of 2500 South and Frank Carr of 4209 So.

43rd.

Mason, 44, is senior partner of the law firm of Mason, Knudsen, Dickeson and Berkheimer.

Mason

In filing, Mason said that "I now feel I am in a position to dedicate the time and energy necessary to serve effectively as a member of the City Council and make a personal contribution to the further development of Lincoln."

"With the advent of Lincoln's new full-time mayor

## Dad Speeding Son To Bryan Strikes 2 Cars

A frightened father driving his infant son to the hospital collided with two other cars at 48th and O during the evening rush hour Tuesday.

One of the drivers — James Crain, 76, of Williamsport, Ind. — suffered a cracked pelvis, shoulder injuries and minor cuts. He was listed in fair condition at Bryan Memorial Hospital.

Ross Munn Jr., 28, of 4438 Greenwood, told police he was going "pretty fast" when he ran a red light and struck Crain's eastbound car.

### Swallowed Cleanser

Munn told police he was rushing his son, Ross III, to Bryan because the baby had swallowed a plumping-cleaning compound.

After the collision, another driver took the boy to the hospital where his stomach was pumped. A spokesman said little Ross would be all right.

Mrs. Munn, riding with her husband, suffered a slight forehead cut.

Their car glanced into a third vehicle, driven by Edward Jancke, 22, of 3932 St. Mary's Ave., denting its fender.

### Asked Escort

Munn had asked Policeman Harry Peterson near 48th and St. Paul for a police escort to Bryan, but the officer said Munn drove off while he was turning the cruiser around to escort Munn.

Peterson said he could not catch up with Munn, although he followed him to 48th and O.

Munn, son of Mr. and Mrs. Ross Munn of Ohio, is a senior in the University of Nebraska Teachers College.

## WEATHER

### Summary Of Conditions

The double-barreled low is now well to the east in Illinois and Indiana and is moving eastward. A west Pacific front will move from the Gulf coast from northeast Minnesota to southwest South Dakota and westward, to a line from lower Michigan through southern Missouri to the Texas Panhandle by Wednesday evening. As it sweeps through Nebraska and Iowa only scattered light snows will result with considerably cloudy skies and generally warmer temperatures. For Wednesday and Thursday we should look for partly cloudy skies, fair occasionally, with no large temperature changes. Wednesday night it will be warm. Thursday night the air mass should be mostly a Pacific type.

By Wednesday evening high pressure will be building into Idaho and southward into most of Wyoming.

## Court Blow To Labor

By WILLIAM

You may believe that the Supreme Court was right or you may think it wrong in its historic opinion on railroad work rules but it cannot be disputed that the opinion is a major blow to labor. The Supreme Court has said that the railroads have the right to make work rule changes. The exact meaning of this is probably not certain yet even to either management or labor but management knows it has won a victory.

It should bring, for sure, a quick end to the jobs of some 40,000 firemen who the railroads claim are not needed in these days of diesel locomotives. Thus, the unions have lost a substantial amount in just this one single classification. But beyond this lies the greater question of labor-management relationships in all business and industry. The railroads are a classic example of the extent to which unions have gained control of things in some areas. The issue on the roads is far from limited to matters of pay and hours of work. The roads operate with an extensive agreement covering job classifications, retirement, etc.

As most management will tell you, wages have come to be only a part of labor-management negotiations. And in a great many cases, wages are a minor part of things with such items as the length of the work week, vacations, holidays and job classifications having more effect on the financial operations of the institution involved than the salaries that are paid.

It is in this area of things that the Supreme Court decision will have its greatest impact. The decision tends to return labor-management relations to a time when wages were the major consideration. The Supreme Court even stated that the question between railroad management and labor now reverts to a plain old process of negotiation and, if the unions so decide, a strike.

But the strike weapon, too, is not what it used to be. Many things have happened in this country in recent years and the tide in these years has been running against labor. For one thing, labor has been faced with the ruthless tactics of such men as James Hoffa of Teamsters. Secondly, automation has delivered a blow that labor has yet to recover from. Third, the position of the laboring man has improved to such an extent over the years that he no longer has the sympathy of the public that he once enjoyed. And finally, our economic system as a whole seems to be in the

O. DOBLER

midst of great changes which are not conducive to strong labor movement.

These changes involve such things as comparatively slim profit margins, the dearth of capital investment funds and the nation's concern with trade relations on an international scale. In the framework of these changes, the American people have come to have a growing concern for the industrial empire that made this nation such a great one. It is not that the American people are not for the working man and for a good wage for him. It is not that the American people have suddenly become callous and now want to pay homage to wealth and those who stand for it. What the American people have become concerned about is an economic structure that does not show the strength and vitality that it did a decade ago.

It is not suggested that the Supreme Court has acted according to public opinion but the court's decision does appear to be in line with much of the thought of the day. The labor movement in this country may well be at a real crossroads at this particular time. There is no thought that it will ever disappear but it may occupy a declining role in things.

The change is a natural one as the nation becomes more affluent. The labor movement has always been essentially a social reform movement but social reform generally finds its breath only in the midst of deprivation and inequality. Social reform cannot function without a cause and the standard of living in this nation has minimized the cause of labor reforms.

Some of this is seen in the reaction of people to the proposed tax cut by the Kennedy administration. It is believed that support for the proposed cut has failed to materialize because economic hard times are too isolated. While some 6 to 7 million citizens may be out of work, those who are employed have no real problems.

It is one thing to want a new coat in place of the old one and quite another thing to want a coat when you have none at all. The jobless situation is in itself as much a deterrent to strong labor as a stimulus for it.

While the plight of the unemployed is not and never will be an acceptable thing with the general public, many wonder if the situation would not be aggravated rather than helped by growing labor strength. The court decision should cause all of us, and particularly organized labor, to ponder many of the questions of our economic future.

## Wrong Approach

The ill-conceived measure to dump the state's several junior colleges into the lap of the University of Nebraska has been killed by the legislature.

The vote to kill was 29 to 10 and the motives for killing were about equal to the number of votes. They ranged from opposition to extending the university's control over secondary education to the other extreme of protecting the university's influence from schemes that would make it an educational catch-all.

Whatever the logic the sponsors could muster for the take-over, there were countervailing factors too great to overcome. One was that the junior college movement did not spring from a planned program of state-serving education. Rather, it fostered community ventures whose aims were as much community building as educationally constructive. Such a mixed pur-

## It's Hard To Believe

The report of City Traffic Engineer Robert Holsinger in regard to a proposed new school stop sign at 40th and South is pretty hard to believe. The signs now used at 40th and South to protect children going and coming from Bryan Elementary School are the "Stop for Pedestrians" variety. Parents in the area have petitioned for a regular flashing, full stop light.

Holsinger reported that a radar check showed that 85 per cent of the traffic going through the 40th and South crosswalk, when not required to stop, traveled at the rate of 10 miles per hour. In three days of checking, no violations of the crosswalk law occurred.

As they say, you can't argue with facts and figures but such ones as these are awfully hard to swallow. People who have simply observed the "Stop for Pedestrian" signs appear to be unanimous in one thing—it is the pedestrian who stops and waits, not the cars. If a car and a

## National Election

Lest this country gets too prepossessed with affairs at Washington, D.C. it is timely to note that an interesting national election is underway and is being waged with spirit.

Many do not know that the United States is not a nation indivisible, as the pledge of allegiance says, but has a nation-within-a-nation arrangement. By solemn treaty the Navajo Indians are a separate sovereign nation, self-governing and

## Influence Didn't Save Arms Contract

WASHINGTON — It's not supposed to be publicized, but one of the most imposing arrays of political strength ever to call on the secretary of defense dropped in to see Robert McNamara the other day to get him to continue a high-priced contract for the manufacture of the M-14 rifle at Worcester, Mass.

The delegation, which illustrates how politics can get mixed up with defense, was composed of the following:

Sen. Ted Kennedy of Massachusetts, the President's brother. Rep. John McCormack of Boston, speaker of the House of Representatives, also a Democrat.

Sen. Leverett Saltonstall, also of Massachusetts, who is No. 1 Republican on the Senate Armed Services committee and No. 1 Republican on the Senate Appropriations sub-committee which votes the money for Armed Services.

This combination of the President's brother, the No. 1 man in the House and the No. 1 Republican of the Senate as far as military policy and military appropriations are concerned, should have been enough to make many an average secretary of Defense turn handsprings.

Along with this delegation was another interesting gentleman, Charles W. Colson, lobbyist for the Harrington and Richardson Arms Company of Worcester, the firm which wanted to continue the M-14 contract.

McNamara, faced with this

## JFK Planning On Big State Support

WASHINGTON — The Senate these days is seemingly in love with its chains and its jailers.

A Democratic majority in which moderates and liberals predominate has sent President Kennedy's restrained civil rights bills to an uncertain fate in a hostile committee. It spent its next working day lauding Senator Harry F. Byrd of Virginia, the foremost isolationist who is presently leading the fight against the Kennedy tax bill as chairman of the Finance Committee.

The senators are not really confused and their official physician, Dr. George Calver, need not contemplate retiring in favor of a psychiatrist. They are merely acquiescing in some remarkable cool politics played by the numbers of the electoral college.

Civil rights obviously is not a live issue legislatively. Yet it is a political force, not alone because it is the goal of the significant Negro minority and supported by many other minorities as a symbol at least of their relatively underprivileged status.

It is a political force also because it holds a vital place in the plans of the Kennedy dynasty for continued power.

Judging from the slogans, democracy operates the same in any language, but it must be admitted, the Window Rock variety comes at a considerably lower price and a higher degree of purity. Washington papers please note.

MARQUIS CHILDS

## White Paper Needed On Cuba

WASHINGTON — Only a white paper giving a complete account of every aspect of the long Cuban misadventure, with the administration putting it squarely on the line, not glossing over the failures or exaggerating the successes, could at this late date be expected to damp down the political quarrel over American policy.

That is the view of observers more and more concerned lest Cuba become a major issue in the presidential campaign of 1964 with unforeseen and perhaps disastrous consequences. It could spell the end of any bipartisanship in foreign policy at a time when there are likely to be greater strains on the management of that policy than at any point since the war's end.

With a rising emotionalism generated by political charges the administration could be goaded into unwise and dangerous adventures. The temptation would be to prove the critics wrong and throw restraint to the winds.

Yet the objection within the administration to a white paper—a sober, thorough, careful, let-the-chips-fall-where-they-may summing up—is that there would be too many red faces. These would not necessarily—or even probably—be political faces. They would be the experts, the specialists, the weapons counters, on whose secret knowledge in the last analysis the decisions, beginning in mid-1959, were taken. Such a paper might prove to be the best analysis the public has been privileged to have of what is right—and wrong—with the far-reaching American intelligence apparatus.

Short of this the game of pinning the blame on the nearest political target will go on with the technique of leak and counter-leak. That technique is calculated to

cause the greatest confusion in the public mind.

Short of a frank disclosure the strain put on certain individuals is too great. As one of his stoutest journalistic admirers noted recently, John McCone, director of the Central Intelligence Agency, is on the hottest of hot seats. He is a Republcan who worked for the election of Richard Nixon in 1960. When President Kennedy asked him to succeed Allen Dulles as head of the CIA he felt that in accepting he was taking on a disinterested public service.

But now he finds his party in Congress making a major issue of the wrongness of the Kennedy decisions on Cuba and that wrongness goes back in part to the expert opinions on which they were based.

McCone is a man of strong convictions. As chairman of the Atomic Energy Commission under President Eisenhower he did not hesitate to oppose the Eisenhower policy of trying to get a nuclear test treaty with the Soviet Union, and he clashed with then Secretary of State Christian Herter on this issue.

McCone believes he was right on the danger of an offensive weapons capability being installed in Cuba before anyone else. By implication others were slow to appreciate this threat. Inevitably members of his party, who want to get all the mileage possible out of Cuba, would like to see him become the hero of the occasion. This explains the hotness of the hot seat and the significance for '64.

In this atmosphere minor differences are exaggerated. On October 3 Under Secretary of State George Ball read a statement to a congressional committee in open

nearing, saying there was no evidence of any offensive buildup in Cuba. He based his statement on the latest intelligence reports.

Had McCone approved it? At first he said no. Roger Hilsman Jr., head of intelligence for the State Department, said he had read it to McCone and the CIA director then recalled that it had been informally cleared with him. Ball omitted one sentence referring to unidentified material near Cuban defensive installations which might have been for radar purposes. Was that significant or not?

Members of congressional committees have been concerned at McCone's statement in executive session that the President's definitions of "offensive" and "defensive" weapons were not of his making. Yet, he has himself said on several occasions that until the actual photographic evidence was obtained from the U-2 flights of October 14 it was impossible to confront Moscow with the challenge the missiles offered to America's security. Going further he has said that not until the far more complete photographic evidence of October 16 and 17 could the proof be put before Latin-American and European states in such a way as to gain their undivided unity in support of the United States.

This last is the important aspect of the matter in the view of those arguing for frankness. Since the final evidence was complete and convincing the outcome was never in doubt. That is the answer to accusations that have seemed in some instances reckless and even hysterical. And it is conceivable that a full and frank account might buttress this matter.

However, others will be printed under a pen name or initials and at the editor's discretion.

### Value Of Water

Lincoln, Neb.

Chet Huntley recently gave an hour-long TV broadcast which he entitled "The Trouble With Water Is People."

Every citizen of Nebraska is acutely interested in the subject matter which Mr. Huntley discussed with such force and understanding. One of the chief reasons why Nebraska has increased in prosperity and stability is the fact that the water resources of the state have been so well conserved and utilized.

Our population has increased almost not at all during the last half century, but we use at least 10 times as much water as we did at the beginning. And the demand for water is still expanding rapidly in spite of the fact that our population is practically stationary.

I would also suggest that he take target lessons beforehand, as he did not kill my cat but only crippled him for life. I would gladly contribute \$15 for this person's passage, but that went to the vet.

J. B.

in Nebraska and also that there is a law against shooting a rifle within the city limits.

If this person wishes to shoot animals of the feline species, I wish he would remove himself to an area where such activities are permissible by law, preferably across the sea. We cat owners of Lincoln will not miss him.

I would also suggest that he take target lessons beforehand, as he did not kill my cat but only crippled him for life. I would gladly contribute \$15 for this person's passage, but that went to the vet.

### Check On Taverns

Lincoln, Neb.

In reading the events of a recent tragedy, it was pointed out that the young man had spent the evening in a local tavern. I have yet to see that our law-enforcement agencies have investigated this tavern or have taken any action of any kind against those who sold this young man enough to drink that on his way home he had a hit-and-run accident and then committed the terrible crime he did.

Our citizens have recently learned that this water supply is not guaranteed, and that we must seek new sources as our population increases.

We foresee a time in the not distant future when cities will compete with irrigation for a water supply.

For many years the population of Denver, Colorado, was held in a "straitjacket" through lack of an adequate water supply. At great expense, they have cut through the Continental Divide and are using water from the Colorado River Basin, in spite of the desperate needs of the people of that river valley. The U.S. Supreme Court is expected shortly to hand down a decision apportioning the waters of the Colorado River. The great cities of Los Angeles, San Diego, Phoenix and others are waiting with bated breath to hear the decision. The most precious natural resource for the people of the whole world is nothing more or less than pure water.

Even Nebraska needs to conserve and guard its water supplies with jealous care.

W. T. DAVIS

### Injured Cat

Lincoln, Neb.

For the benefit of the person who took upon himself the task of shooting my cat on Tuesday evening, Feb. 26, I wish to impart the information that there is no open hunting season on house cats

in reading the events of a recent tragedy, it was pointed out that the young man had spent the evening in a local tavern. I have yet to see that our law-enforcement agencies have investigated this tavern or have taken any action of any kind against those who sold this young man enough to drink that on his way home he had a hit-and-run accident and then committed the terrible crime he did.

In city and county court records regarding drunken drivers, we note that the driver is usually stuck.

I am of the opinion that in cases of drunken drivers, law-enforcement officials should investigate the tavern owners who sell them the liquor. I am sure after the loss of several licenses that the tavern owners would check their customers as they do their cash registers.

## OFF THE RECORD

By Ed. Reed

# POSTCARD by Stan Palaplane

We greet you this brisk morning from the wine country of California. The air is winey — as the poets say. The hills are green with Spring. And the long, flat Napa Valley is rustling with rebirth of the vine.

"Who prates of war or want a fete taking wine?"

So said Horace, the Roman columnist, taking a sip of the red and trying to figure out how much he should render unto Caesar.

"Wine makes old wives wench," wrote John Clarke, the corner druggist in 1639.

I drove through the Sonoma valley where Californians raised the Bear Flag of independence that flies over our schools and public buildings.

An interesting point of this

## The Tormenting Twins Meet Their Master

OMAHA, Nebr. — Mrs. R. B. Jamison, 4802 N. 48th St. says: "I can't say enough for Baker's Hair Tonic, and Baker's Shampoo. The Hair Tonic is the best there is for dandruff and itchy scalp, and the Shampoo leaves the hair bright and easy to manage." Try Baker's Hair Tonic for The Tormenting Twins, dandruff and itchy scalp. It will satisfy, or money back. For clean, lustrous hair use Baker's Shampoo.

is that the rebellious Americans were loaded on Fort Sutter whiskey rather than wine. A good many of them criticized the artist — they said the bear looked like a pig.

The artist mis-spelled California. Having to insert the final "I" above the line.

However, it was a historic moment and adds charm to the Biggest State of the Union.

You can cross the range of hills here and look down into the Napa Valley. It is a picture postcard of rural peace. The vines have been pruned back for this year's vintage leaves. And little curls of blue smoke rise in the clear air from the fired prunings.

What is happening in this Paradise of the vine? It is being developed for real estate.

"I think land here should double or triple in value in 5 years," said Fred Holmes.

Holmes is not in real estate. But he has bought a good deal of foothill land that overlooks the valley.

He did not come here to invest. He came to enjoy a rural life an hour from San Francisco.

Having found the rural life, he now finds it may become suburban.

And that is what is happening when a State begins tak-

ing in an immigration at the rate of 1600 people a day.

The winery is at the very beginning of this valley. It is mellow, old stone. The wine is kept in the even temperature warehouses. Or in natural caves carved into the limestone foothills.

Man has a mystic relation with wine.

Poets and philosophers spoke of it with mystic words.

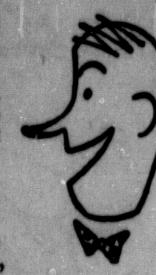

"O thou the drink of gods, and angels! Wine!"

On the sunny weekends, the valley roads swarm with leisurely drivers come to taste the Spring and the wine.

The wineries are filled with sightseers, marching past the huge, wooden vats where the growing grape and the smell of pruning smoke in the evening.

(Most wineries have "tast-

## Burney, Moulton Named Honorary 4-H Members

Lt. Gov. Dwight Burney and Sen. William Moulton of Omaha were made honorary 4-H Club members Tuesday morning as 47 Nebraska 4-H Club members made a special report to the Legislature in connection with the current national 4-H Club Week.

Other national 4-H delegates present were Vicki Cline of Gothenburg, Jerry Hibbs of Smithfield and Leslie Nelson of Stromsburg.

presentation in the legislative chambers.

Jeanette Coufal of Seward, one of Nebraska's delegates to the national 4-H Conference in Washington, D.C., told the senators that 4-H enrollment in Nebraska has reached an all-time high of 35,479 members.

Other national 4-H delegates present were Vicki Cline of Gothenburg, Jerry Hibbs of Smithfield and Leslie Nelson of Stromsburg.

## LUXURY CAR: RIDES, RESPONDS AND LOOKS LIKE IT OUGHT TO COST A RANSOM

You're looking at our Impala Super Sport Convertible which, along with its cousin the Sport Coupe, absolutely embarrasses higher priced cars. That special trim and those front bucket seats merely hint at the comforts you find built into every Impala SS.

Performance? It's remarkable, an

understatement we can afford when there are 7 engines to choose from. One of which is the popular 340-hp Turbo-Fire 409\*, a wizard in traffic. And others all the way up to 425 hp.\*

If you want an extra flourish or two, mull over extra-cost options like floor-shift 4-speed manual or Powerglide transmission, Positrac-

tion axle for better road adhesion, fade-resistant sintered-metallic brake linings, and a tachometer to relay what's cooking up front.

Just before you rush off to your Chevrolet dealer, may we remind you that both Impala Super Sports offer the new Comfortilt steering wheel\*. You adjust it to suit your

driving style, flick it out of the way for easy entry and exit.

All three Chevrolet series—Biscayne, Bel Air and Impala—deserve a long look. Super Sports almost demand it.

SS equipment\* available on both Impala Convertible and Sport Coupe. \*Optional at extra cost.

# "Never use self-polishing wax on wood floors!"

... says Henry M. Tobey, Research Director of the world's largest hardwood floor maker

"Self-polishing waxes are great for linoleum, tile, and vinyl floors—but not wood. That's because most of them are made primarily of synthetic plastics. They simply cannot be removed from wood floors without damaging the finish or the wood."

The layers of old self-polishing wax pile up until your wood floor darkens and discolors!

For this reason, we recommend the use of Bruce Cleaning Wax or Bruce Floor Cleaner on your wood floors. Both contain a combination of removable liquid paste wax and waterless wood floor cleaner. They clean; remove the old wax; and leave a rich, new coat of gleaming paste wax protection—all at the same time.

If you want a heavy coat of wax, use Bruce Cleaning Wax. For lighter waxing and badly soiled floors, you'll prefer Bruce Floor Cleaner. It's the right way, the easy way to keep your wood floors clean and bright."

E.I. Bruce Co., Memphis, Tenn.

# County Board Rejects Road Shift Asked By Burlington

Lancaster County Commissioners voted late Tuesday against vacating and relocating a portion of the Cushman Park Road west of the Burlington Railroad hump as construction of an overpass or flicial.

County Board members indicated they felt there are ins-

sufficient access roads in the area now and that such a move would "jeopardize" the residents and their property. Burlington officials from Chicago told the board that the railroad would entirely finance the \$48,000 estimated cost of rerouting the road which is located about 4 miles west of 14th Street between O and A.

#### For Expansion

Burlington attorney Raymond S. Skub said that the vacation and relocation would enable the railroad to rebuild its yards and extend the hump to accommodate longer trains and increased traffic into Lincoln.

Suggestions by residents of the area appearing in opposition to the proposal included construction of an overpass or underpass on the road to facilitate traffic and simultaneously solve the railroad's problem.

However, Skub said that the viaduct would be "impracticable" because of an estimated cost of \$150,000, and the underpass would be more costly because of the necessary heavier construction to hold the trains.

Lincoln attorneys Herman Ginsburg and Norman Krivosh, representing S. E. Copple, property owner in the area, told the board that the railroad's request, if granted, would accomplish "something for their (railroad's) benefit at the expense of the property owners."

Ginsburg also pointed out the problems involved with land condemnation necessary for such relocation and the possibility of the "county inviting law suits if you do this."

#### Safety Emphasized

Krivosh emphasized the safety factor pointing out that the road is now straight and such relocation as proposed would result in a crooked road.

"If only one individual is killed at that crossing, that is one too many," he said, "and \$100,000 doesn't justify that individual."

A representative of the Southwest Fire District pointed out that his organization is "concerned" over such a vaccination.

Other property owners opposing the proposal pointed out that the traffic "warrants the construction of a viaduct," and that the county should put "one or two more roads in there instead of taking one away, so people can get from O Street to A Street."

# Universal Surety, Inland Co. Operating Earnings Increase

Operating earnings of the new office building, now under construction at 1111 J, will take place in the summer.

Officers elected were Tallman, president; Fred N. Bettge, vice president; Eugene H. Lilly, vice president; James W. Hewitt, vice president and general counsel; Celia Tomaszewski, assistant vice president, and C. W. Hansen, secretary and treasurer.

Directors are Abel, Bettge, Hansen, Hewitt, Lilly, Tallman and E. J. Faulkner.

# State's School Districts Top Dozen Others'

Nebraska has more school districts than Hawaii, Alaska, Washington, Oregon, Nevada, Idaho, Montana, Utah, Wyoming, Colorado, Arizona and New Mexico combined.

This fact was contained in a school district reorganization progress report compiled by the Nebraska Education Department and released Tuesday.

The report shows that October 1962, Nebraska had 3,077 school districts.

South Dakota is second to Nebraska with 2,964 districts, the report noted.

#### Bigger Trend

In observing what has taken place in Nebraska since 1949, it may be noted that reorganization process shows a trend toward development of school districts with larger geographic area and larger school populations," the report said.

There is, however, the report said, little concrete evidence that during the past year much more than "merely a reduction in numbers" was accomplished.

The report said there is a continued need for considerable additional progress, evaluation and planning in school district reorganization "in the interest of bringing quality education to all the people of Nebraska."

10 years old  
or  
7 years old

Tick-tock, tick-tock...the BOURBON that didn't watch the clock

# OLD CHARTER KENTUCKY'S FINEST BOURBON

Only a superior whisky improves with age. Old Charter goes into the cask the finest whisky obtainable. Long years later, it emerges with all the subtle bouquet, flavor, and mellow nature can bestow. Whether you select the popular 7 year Old Charter or the extra age 10 year old — you know it's Kentucky's Finest.

Will The Critics Roast Him?

Sidney, a 10-year-old parrot, perches atop his cage as he is introduced to the press outside the Duke of York's Theater in London. Sidney is the winner of an audition for the part of the prime minister in the play, "The Bed Sitting Room," opening soon at the theater. In the play, the prime minister turns into a parrot.

#### Omahan To Prison For Grand Larceny

Hillard Lee Sanders, 37, of Omaha, was sentenced to 18 months in the State Penitentiary on a grand larceny charge Tuesday by Lancaster District Judge Herbert Ronin.

Sanders pleaded guilty Thursday to taking more than \$115 from the Goodyear Service Store Feb. 8.

Three of every 4 house hunters want a full basement and 9 of 10 desire a separate dining room.

#### Kansan Confined For Grand Theft

Lancaster District Judge Herbert Ronin Tuesday sentenced a Wichita, Kan., man to an indeterminate term of from one to two years in the Men's Reformatory on a grand larceny charge.

John Robert Smith, 31, had pleaded guilty Feb. 20 to stealing property valued in excess of \$100 from Ben Simon & Sons.

# New Lincoln Bank South Asked

State Banking Director Ralph E. Misko Tuesday reported receipt of an application for a state charter for a new bank in Lincoln.

The proposed bank would be known as the Lincoln Bank South and would be located in the vicinity of 27th and Nebraska Highway 2 at the south edge of Lincoln.

Misko identified the majority of the applicants as officers of the National Bank of Commerce in Lincoln.

Shareholders of the proposed bank would be Glenn Yaussi, Myron Weil, J. P. Mahoney, Herbert Walt, Herman Brockmeier, Gene Eaton, E. N. Thompson, Robert Wekesser and John C. Whitton.

The applicants propose capital accounts of \$300,000 for the bank, consisting of \$200,000 basic capital, \$50,000 surplus and \$50,000 undivided profits.

Shares issued would total 40,000. Misko said a survey will be made of the territory around 27th and Nebr. 2, to be followed by a public hearing on the application. "In view of the fact that

there are 4 pending applications for bank charters, it will possibly be early summer before a decision can be made as to whether or not the application will be granted or denied," Misko said.

In the open test that tears 'em apart...the Daytona 500 Ford durability conquered the field

**1st, 2nd, 3rd, 4th, and 5th**

#### BOX SCORE OF DURABILITY STAMINA AND PERFORMANCE AT DAYTONA, FEB. 24, 1963

NUMBER STARTED	NUMBER FINISHED	POSITIONS
12 '63½ FORDS	9	1, 2, 3, 4, 5, 10, 11, 17, 24
5 '63 CHEVROLETS	2	9, 14
7 '63 PONTIACS	3	7, 8, 13
5 '63 PLYMOUTHS	3	6, 18, 23
2 '63 DODGES	0	
1 '63 CHRYSLER	0	

Daytona is no "private" test arranged by a manufacturer to favor his car's strong points. It is open competition—anyone can enter—and the one thing that is proved by its searing 500 miles is just exactly how well a car hangs together. At Daytona, Florida, on February 24, five brand-new 1963½ Fords showed the world what durability means by sweeping the first five places. And that has never been equaled in Daytona history!

The box score at the left tells the true story...car endurance that takes brutal punishment and comes back for more.

No proving ground can equal this kind of torture. Daytona was a challenge we welcomed, a chance to prove in open competition the essential durability built into every car we make. For this durability is the basic quality that underlies every other factor; that makes possible the silence, the solid road-grip, the ease of control, the balanced braking...and all the other

things that go into Ford's concept of total performance.

These were the same '63½ Super Torque Fords that made styling history at their preview at Monaco, and which were just announced at your Ford Dealer's last week. They're yours now; get behind the wheel and find out for yourself what total performance means!

FOR 60 YEARS THE SYMBOL OF DEFENDABLE PRODUCTS  MOTOR COMPANY

IF IT'S FORD-BUILT, IT'S BUILT FOR PERFORMANCE...TOTAL PERFORMANCE

# House Group OKs Extension Of Draft

Washington (UPI) — President Kennedy's request for a 4-year extension of the draft law was unanimously approved by the House Armed Services Committee Tuesday amid indications that inductions will continue at a high rate at least through spring.

The Defense Department has called for 9,000 and 10,000 draftees for the Army during March and April respectively, as compared to draft quotas of 4,000 each during January and February.

Defense officials said the draft is essential to maintain the strength of the 3 military services at total of more than a million men.

The present draft law, which was largely inoperative during its first two years,

has been on the books since 1948. It was extended for 4 years in 1959.

The Army, Navy, Air Force and Marines had a strength totaling 2,676,832 on Jan. 31, an increase of nearly 10,000 compared to Dec. 31, with a prospect that the figure will continue to edge upward.

Defense officials never have had any doubt that the draft law, which expires July 1 would be renewed. The vote in the House Armed Services Committee, was announced by Chairman Carl Vinson D-Ga., as 37 to 10.

The committee did not adopt a proposal by the American Civil Liberties Union and various religious groups urging the elimination of a restriction which determines who can qualify as conscientious objectors.

## 'PARASITES' SENTENCED

New York (UPI) — Four men described by the prosecution as financial parasites were sentenced to 4 to 7 years in prison Tuesday for a \$5 million swindle of investors in United Dye & Chemical Corp. stock.

They also were fined a total of \$115,000. Additionally, a now defunct brokerage firm, R. B. Gravis, Inc., was fined \$15,000.

Federal District Judge William B. Herlands ordered the stiffest sentence, 7 years and a \$40,000 fine, for Virgil D. Dardi, 58, of San Francisco. He was president of United Dye in 1955 and 1956 when the fraud was committed.

The others sentenced:

Charles M. Berman, a broker-dealer of Lewiston, Idaho, 6 years and a \$35,000 fine; Rosenthal, a broker-dealer of New York, 4 years and a \$30,000 fine; Robert B. Gravis, a broker-dealer of New York, 5 years and a \$15,000 fine.

Miami, Fla. (UPI) — A 3 foot 11½ inch wrestler, a victim of a holdup by shoe bandits, and a doctor who said a good word for life in Cuba were among 101 persons alighting Tuesday from a refugee plane from Havana.

"I'm looking for a manager," said Ismael Leon Gonzales, the diminutive wrestler.

He was carrying a tattered leather suitcase bearing a number of faded stickers from Alabama, Missouri, Michigan, and the U.S. Army.

These, he said, were souvenirs from his wrestling days, when he toured the country as "Vic Gonzales, the Cuban Champion."

Gonzales and all but one of his fellow passengers on the refugee flight denounced the Fidel Castro regime and communism.

The exception was Dr. Julian Baldor. He brought his

American wife, Mary Elizabeth, here for medical treatment and said it was likely he would return to Cuba.

"There is no food shortage in Cuba," Baldor said. "We have ration books, but I have never gone hungry. Sometimes they have sales when ration stamps are not required."

"My job with the preventive health department is there. I have no political affiliation. I do not participate in any ideology."

"I feel the country people are with Castro. The majority of Cubans endorse him," Baldor said.

Cuban exiles at the airport who heard Baldor's statements began expostulating with him. Finally a Red Cross worker asked that Baldor be permitted to tend his ailing wife.

Baldor's size-up of life in Cuba was countered by Antonio Infante, 49, who said it

## Ad Men, Solons Hear Safety Needs

"It's too bad the dead can't be stopped from lobbying for safety legislation," Nebraska's state senators were told at a meeting of the Advertising Club of Lincoln Tuesday evening.

The speaker was Earle F. Heffley of Glenview, Ill., public relations director for Allied Van Lines.

Heffley, a traffic safety expert, recommended a state safety office, adequate staffing of enforcement organizations and constant re-evaluation of licensing requirements, as well as reflector-

ized license plates and man-

return to lobby for safety legislation," Nebraska's state senators were told at a meeting of the Advertising Club of Lincoln Tuesday evening.

The greatest enemy to traffic safety is public apathy," Heffley said. "People must learn that accidents don't always happen to the other fellow."

He cited "the E's of traffic safety"—Engineering, Education, and Enforcement—and added a fourth, Example.

Of these, he said, enforcement is the most important saying that 89% of all fatal accidents involve a traffic violation. The figure for Ne-

braska, he added, is 95%.

The Advertising Club

awarded its annual distin-

guished service award to

Dave Walcott of Woodmen

Accident & Life Insurance

Co., naming him "Advertis-

ing Man of the Year."

Social Casework Institute Scheduled

Social workers will have the opportunity to improve their ability to work with individuals as members of families at the 18th annual Institute in Social Casework sponsored by the University of Nebraska Graduate School of Social Work.

The institute, "Principles of Family Diagnosis and Treatment," will be held Friday and Saturday at the Nebraska Center on the University of Nebraska Agriculture College campus. About 100 social workers are expected to participate.

## Assailant Of Hoffa Fears Retaliation

Nashville, Tenn. (UPI) — A man who shot at Teamster Union President James R. Hoffa was pictured as being afraid friends of the union "or a mentally disturbed person" might try to retaliate.

Disclosure that Warren A. Swanson, 28, of Washington, D.C., has been held in maximum security units at the U.S. Medical Center, Springfield, Mo., "at his own request" came in a letter from hospital authorities to U.S. Atty. Kenneth Harwell.

Swanson walked into the Nashville courtroom where Hoffa was being tried last December, fired an air pellet at Hoffa, and was quickly subdued by Hoffa and U.S. marshals.

The hospital psychiatrists advised Harwell that Swanson was able to appear for a federal court hearing on the contempt of court charges filed after the attack.

Swanson is a native of Loomis, Neb., and had lived in the Lexington area.

**-MIAMI BEACH-**  
**GOP Meet**  
**Draws Big**  
**Cash Offer**

Washington (AP) — Competition for the 1964 Republican national convention stepped up Tuesday with Miami Beach offering the largest cash bid so far—\$600,000.

The bid by a delegation headed by Democratic Gov. Farris Bryant of Florida was the largest cash offer veteran reporters could remember ever being made to a site committee of either party.

"In addition to the cash, Bryant said the Florida city would provide free rental of the convention hall, unlimited parking space, free air conditioning and free janitor service.

He said the offer was backed by "the entire state of Florida."

The largest previous offer was a combined cash and services bid of \$650,000 from Philadelphia. Only slightly more than half the Philadelphia offer was in cash.

Bryant, accompanied by Florida's two Republican congressmen, Reps. Edward J. Gurney and William Kramer, and a number of Miami Beach officials, appeared before the committee after a delegation from San Francisco.

Miami Beach was the last of 6 cities bidding for the 1964 convention to appear before the committee's two-day closed session, which ended Tuesday.

Mayor George Christopher of San Francisco said his city offered \$50,000 cash, plus revenues from such sources as convention programs and tickets, and was willing to negotiate further.

In addition to Miami Beach, San Francisco and Philadelphia, the cities bidding for the GOP convention are Detroit and Chicago. Dallas was in the early running but withdrew. The 1960 Republican convention was in Chicago.

**Claims Committee Reports Measure Affecting Villages**

The Legislature's Salaries and Claims Committee heard and held two salary increase bills Tuesday but reported to the floor a third bill given hearing, affecting second class cities and villages.

The measure advanced, LB716, introduced by Sen. William B. Brandt of Unadilla, provides for posting in 3 public places of a notice of proposed sewer assessments, in addition to newspaper publication of notice already provided.

The salary bills held included:

LB750—Setting the salary of the state banking director, now a maximum of \$9,000, at \$12,500 per year.

LB658—Increasing the salary of state liquor control commissioners from the present \$7,000 to \$9,500 per year.

**AG COMMITTEE OK'S TRADE MARK IDENTIFICATION FOR FEED MAKERS**

The Legislature's Agriculture Committee approved 5-1 Tuesday a bill permitting commercial feed producers to use trade mark identifications of ingredients as reported on the feed labels.

The trade mark name of an ingredient would immediately follow the generic name of the ingredient under the amended LB722, advanced to the floor on a 5-1 vote.

Sens. Jerome Warner of Waverly and Eric Rasmussen of M. R. Elighny, representing

Fairmont introduced the measure and it was supported by Secretary of State Frank Marsh, who said "a trade mark is no good if you don't use it."

Help Farmers  
Supporters said the dual identification would help farmers to identify feed ingredients because often the trade mark name is more familiar to them than the technical or chemical name.

Difficulty Predicted

Although the bill drew no

a mill in Lincoln, said his firm had been threatened with loss of approval by the State Agriculture Department if it did not discontinue using trade name identifications.

He maintained such trade name use is legal and said he was interested in the bill so that there would be no question of interpretation in the Agriculture Department.

Opposition witnesses, Chief Chemist Bennett D. Hites of the Agriculture Department said the labeling policy incorporated in the bill runs contrary to a resolution of American feed control officials and predicted there would be difficulty with neighboring states.

Sen. Warner said, however, there would be no interstate commerce complications, and Marsh said State Agriculture Director Pearle Finigan had approved the bill.

opposition witnesses, Chief Chemist Bennett D. Hites of the Agriculture Department said the labeling policy incorporated in the bill runs contrary to a resolution of American feed control officials and predicted there would be difficulty with neighboring states.

The name change bill, LB717, was introduced by Sen. William Brandt of Unadilla and Sen. Arnold Ruhrke of Plymouth.

# Oil, Gas Drilling Fees Bill Is Axed

For the first time in more than 9 weeks of lawmaking, a bill failed of passage on final reading in the State Legislature Tuesday.

Axed was Sen. Terry Carpenter's LB124, providing that fees for issuing oil and gas well drilling permits would go into the state general fund instead of the oil and gas conservation fund.

The showdown vote was 21-20. Twenty-two affirmative votes were needed for approval.

The bill, subject of considerable debate on the floor earlier, was opposed by the State Oil and Gas Conservation Commission which has been receiving the revenue

and using it for operating funds. The revenue has been sufficient so that for some time the commission has operated without levying a tax on oil and gas produced as the commission is authorized to levy.

The commission announced late last week it was reimposing the levy in view of imminent loss of revenue from the oil and gas permits.

LB124 started out as a bill to provide that driller permit fees would go into a special fund for use by the state geologist. The Public Works Committee decided to place the money instead into the general fund.

Sen. Carpenter, who has authored 85 bills at the current session, fared better on three of his tax bills which

showed up for final passage Tuesday. All three were passed by comfortable margins.

Also passed Tuesday was a bill, LB172, revising boundaries of the districts from which the state game commissioners are chosen.

Principal effect of LB172 is to place Douglas and Sarpy Counties into one district, thus assuring that the Omaha metropolitan area will at all times have a representative on the commission.

Bills passed Tuesday, and the vote on them:

LB110 (Carpenter)—Providing that the register of deeds shall include all sales of real property in his report to the tax commissioner. (41-0).

LB111 (Carpenter, Syve Thompson, Claussen, Mahoney)—Establishing an advisory committee to the Nebraska Soil and Water Conservation Committee to include the state health director, state engineer and game commission director. (41-0).

LB63 (Bridonbaugh, Hasebrook, Brandt, Mahoney)—Deleting obsolete material in law related to eminent domain.

LB116 (Carpenter)—Providing that foreign corporations which fail to supply the Nebraska tax commissioner with names and addresses of stockholders shall be required to file maintenance actions in the courts of the state or entering into contracts in the state. (38-3).

LB117 (Carpenter)—Requiring property tax payers to report all outside improvements made to their estate since the last tax report. (38-0).

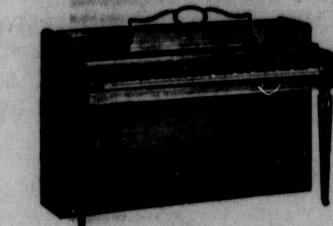

LB172 (Syve, Klaver, Russillo, Mahoney, Moulton, Danner, Payne, Skarda)—Revising state game commission districts. (42-0).

# Peterson Proposes Study By Editors

Hastings (AP)—Val Peterson, member of the University of Nebraska Board of Regents, said Tuesday that he will propose to the Regents that a committee of 3 representative Nebraska editors weigh the charges of Ray Simmons, Fremont attorney, that the student newspaper, the Daily Nebraskan, takes what Simmons has termed a constant liberal line.

Peterson, a former governor of Nebraska, said he will

propose that the committee be named by the president of the Nebraska Press Association. Findings of the committee would be made public.

Simmons made his charges in a pamphlet distributed at the Republican Founders Day meeting in Lincoln last Saturday.

Peterson said he would suggest that either Hyde Sweet or Marvin of Beatrice be named chairman of the committee of editors. He said he believed that the public would have complete confidence in either.

"Ray Simmons' charges against the Daily Nebraskan,

its staff and sponsors, faculty members and the administration of the university are not only serious but also happily subject to determination," Peterson said. "They are in writing as are the pages of the Daily Nebraskan and can either be established or discarded by competent judges."

"Intellectual ferment is not only desirable but absolutely essential in a university community," Peterson continued.

"Such ferment is possible only when all viewpoints are fairly presented. Less than such presentation makes an educational institution a

propaganda mill. This surely would be abhorrent to all Nebraskans."

In Lincoln, Carroll Thompson, publicity director of the Lancaster County Republican organization and former college journalism instructor, took exception to the Simmons charges.

"First, I know that Mr.

Simmons does not speak for lots of Republicans," Thompson said in a statement. "He may speak for some. But the mere fact that he chose to present his charges at the recent Founders Day meeting could not be accepted by the public as reason to think that he represents the Republican Party.

"Secondly, his charges against the Daily Nebraskan are obvious attempts to forbid the exercise of freedom of the press in the place where it is most dear to the future of Nebraska. He is calling for the news in that paper to be so managed as to express what he feels to be the prevailing opinion in Nebraska today."

"His charges are based on the premise that he alone is able to judge what the prevailing public opinion is, and that he should be able to force that opinion on others."

It was also termed a vehicle to give more "stability and solidarity" to Class VI schools districts (generally county high schools or rural high schools) because present laws permit individual districts making up a Class VI district to withdraw at any time.

NSIA In Favor

Several representatives of the Nebraska School Improvement Association testified in favor of the measure.

NSIA Secretary S. H. Brauer Jr. said Class I districts should not be allowed to move out of the superimposed Class VI districts "without consideration of the remaining population."

John Lynch, executive secretary of the Nebraska State Education Association, voiced the opposition of his organization, the State Board of Education and the Nebraska State School Boards Association to the philosophy of LB597.

He said the bill would "set the trend of reorganization toward Class VI districts rather than the K-12 (kindergarten through 12th grade) districts" which their organizations deem preferable.

Lynch said there is "no continuity between Class I and Class VI setups, and duplication of administration."

The other two measures heard and held, both of which were introduced by Sen. Erlewine, were:

LB261 — providing that when an area is taken from or added to a Class VI school district, it shall be deemed an affected district.

LB407 — providing for property and indebtedness of a dissolved district and apportioning it.

## June Bride-Elect

## March, A Very Gay, Busy Month

## Contest Winner

March is a fun month and, if our who-is-doing-what calendar is any indication, a busy one.

There are parties, informal ones, with no special reason other than an evening with good friends —

One such party is planned for Saturday evening when Dr. and Mrs. Dale Copek and Mr. and Mrs. Louis Roper will be hosts and hostesses at the Lincoln Country Club.

And a week from Saturday evening — March 16, there is to be an informal St.

## Guest Speaker

A talk on opportunities for women will be given by Mrs. Lloyd B. Snyder at the meeting of Zeta Chapter, Delta Kappa Gamma, next Monday evening at the University of Nebraska Student Union.

The program will follow a 6 o'clock dinner, and also will include an exhibit by the members of their various creative hobbies. Mrs. Mary C. Commers is in charge of the program and exhibit.

The group will discuss plans for the sorority's state convention to be held at Grand Island, March 29 and 30.

Plans are being made for a wedding on June 8.

Both Miss Slepicka and her fiance are students at the University of Nebraska.

Patrick's Day party at Hotel Lincoln. The sixsome of hosts and hostesses for this gala affair will include Mr. and Mrs. Gates Minnick, Mr. and Mrs. Joseph Carter, Mr. and Mrs. Tom Miller, Mr. and Mrs. David Weber, Mr. and Mrs. Samuel Van Pelt and Mr. and Mrs. Tom Mor-

Cornhusker —

It might be well, since we have mentioned one fashion show, to say a word or two about another one — The Women's Division of the Chamber of Commerce has a show planned for Saturday afternoon, March 23, in the ballroom at Cornhusker. This event is a benefit for the Children's Zoo, and we hear that the clothes will be for the sugar n' spice set.

But back to the approach-

ing weekend and the Mad Hatters' "Wearin' of the Green" party — a dinner dance in the Terrace Room at Hotel Lincoln.

Guest couples at the affair will be Mr. and Mrs. Robert Staberg, Mr. and Mrs. Neil Whitney, Mr. and Mrs. Don Schmieding, Mr. and Mrs. Dean Pillard, Mr. and Mrs. Wayne Elgert and Mr. and Mrs. Keith Frank.

Arranging the party details is a committee com-

posed of Mr. and Mrs. Don Nelson, chairmen; Mr. and Mrs. Vern Watkins, Mr. and Mrs. John Alloway and Mr. and Mrs. Ernie Swan.

Mrs. Wallace Peterson was named winner of the Lincoln Toastmistress Club's annual speech contest, which was concluded Monday night following the club's dinner at the Capital Hotel.

Program speakers and their topics for the final in the contest series were Mrs. Peterson, "All Men Are Pilgrims"; Mrs. Bryan Stromer, "Power of Words"; Mrs. Lavon Sumption, "Builder of Youth"; and Mrs. Charles Chace, "Dreamers Who Do To Do."

Mrs. Stromer was named second place winner, and serving as judges were Paul Quinlan, William Dunstan, Miss Helen Snyder and Mrs. Loren Lamborn.

A guest of the club was Mrs. Luella Hurley.

Mrs. Peterson will represent the club at the Toastmistress Council contest to be held in Omaha, April 21.

Announcing the engagement and approaching marriage of Miss Ardith Ann Slepicka to Richard D. Eisenhauer, son of Mr. and Mrs. Phillip G. Eisenhauer of Granite Falls, Wash., are the bride-elect's parents, Mr. and Mrs. Norbert Slepicka of Western.

Plans are being made for a wedding on June 8.

Both Miss Slepicka and her fiance are students at the University of Nebraska.

## Why Grow Old?

## Questions And Answers

*Josephine Lowman*

Q. "Would you kindly answer this problem in your column? For the past year my hair has been turning quite gray. I am 30. My father suggested that I take iron tablets and thinks the graying is due to an iron deficiency.

"I hesitate to do this with all the scares about pills, and I do not feel that my problem is important enough to take to a doctor since it is a vanity problem. Would taking iron tablets or thyroid in small doses in any way affect the system?"

A. There is no need to take iron tablets unless you are anemic and I do not know whether or not they would make any difference in graying hair anyway. You cannot get thyroid without a doctor's prescription. As far as I know, thyroid has no effect on graying hair. Sometimes a thyroid deficiency causes falling or thinning hair.

There is no reason not to talk to your doctor about this. He may prescribe vitamin B. DO NOT go in for self diagnosis. Usually, graying hair is due to inheritance.

Q. "I am 5 feet, 6½ inches tall. I weigh 148 pounds. My measurements are bust 38½, waist 29½ and hips 43 inches. I am medium build. Please comment."

A. If you have a medium build, you are about eight pounds overweight. Watch your diet. Do a little calorie counting. That should not be difficult for such a small loss.

Your hips are out of proportion, so concentrate on hip slimming exercises to distribute your weight more attractively. Here's one you might use:

Lie on your back, arms stretched out sideways, from your shoulders. Your feet are together, legs straight. Cross your left leg over the right with a straight knee, trying to touch the right hand with the left foot. Return left leg to starting position. Cross the right leg over the left, swinging it up toward the left hand. Return to starting position. Repeat this five times the first day. Be careful to keep the hands on the floor while you do this exercise. Let the hips roll where they may.

If you or any of my read-

ers would like a free copy of my hip slimming exercises, send a stamped, self-addressed envelope with your request for leaflet No. 3 to Josephine Lowman in care of this newspaper.

Q. "I am almost 15, weigh

100 pounds and am 5 feet, 2½ inches tall. I have almost no hips and I'm almost flat chested. My arms are long and thin. Please print this in your column with some helpful advice. You can understand why I am not signing my name."

A. Come on, it's not as bad as that! You are under-

weight—around 13 pounds—but bony structure and inheritance probably play a part. Try to gain weight by eating three well-balanced meals a day. Have a snack before you go to bed, and drink a glass of milk or juice between meals.

Swimming is wonderful for

underweights as well as overweights and sometimes vitamin B helps. Get plenty of sleep and talk to your doctor about your figure problems. You might also profit by taking exercises to build contour in your legs and bust.

An early spring bride-elect is Miss Janice Kay Buel who has announced that her marriage to Lyle Grossman, son of Mr. and Mrs. Isaac Grossman of Bennet, will take place on Saturday, March 16.

Miss Buel, who is the daughter of Mr. and Mrs. Worth Buel, has chosen Miss Kay Edwards as her maid of honor for the ceremony, which will be solemnized at 7:30 o'clock in the evening at the Bennet Community Church. Her bridesmaid will be Miss Virginia Vollertsen.

Serving as best man will be Lyle Maxson, and seating the guests will be Jim Buel, brother of the bride-to-be,

Duane Novak will serve his brother as best man.

The service will take place at St. James Methodist Church at 4 o'clock in the afternoon.

Miss Patricia Siemers will attend Miss Cleckner as maid of honor, and her bridesmaid will be her fiance's sister, Miss Mary Novak.

Duane Novak will serve his brother as best man.

Camp Fire Girls, District I leaders, 9:15 o'clock, Northeast Community Church.

LAFB Officers Wives Club, board meeting, 9:30 o'clock, Officers Club.

children first and I'm afraid if I marry her she would soon have me playing second fiddle to her children. I love her but I don't like her setup. Also, the expense of a ready-made family frightens me. Any advice?

## FRIGHTENED

## DEAR FRIGHTENED:

Yes, plenty. Find yourself a childless woman or one who is "unbearable." Or one with grown children who would be no expense to you. You might "love" this woman, but your letter reveals a man who would say "I do" and then wonder why he has used up all its lives.

★ ★ ★

## DEAR ABBY:

We have a big gray angora cat who has used up all her nine lives.

We dumped her out in the country about seven times and each time we took her about ten miles from home, but she always found her way home again. Would anybody like to have our cat? VICKIE IN COLDWATER

DEAR VICKIE: Don't you know that it is cruel to "dump" a cat out in the country? It could die of starvation or exposure. Tell your Daddy to call the Animal Shelter if you can't find a friend or neighbor who wants a big gray angora cat which has used up all its lives.

★ ★ ★

## DEAR ABBY:

I have been going with a widow for a year. I am 55, have never been married and do not particularly care for children, and she has three. They are average teen-agers who get on my nerves when I'm around them for over an hour. This woman puts her

mit my second husband to adopt him. Fine. When my son's friends come to the house they call me "MRS. JONES." I don't bother to correct them because, after all, my son's name is JOE JONES, so it is a natural mistake. But when my husband is home and they call him "MR. JONES," he does a slow burn. Should I correct them on the spot while my husband is fuming with anger? Or should I let it go and let him fume?

MRS. SMITH  
DEAR MRS. SMITH: Tell your son (privately) to advise his friends that MR. SMITH is your husband, and that you are MRS. SMITH. And that although MR. JONES is his father's name, MR. JONES doesn't live there any more.

Stop worrying. Write to Abby. For a personal reply enclose a self-addressed, stamped envelope.

# FUN NEWS IN SUBURBIA

## COTNER TERRACE

Lee and Douglas.

The Plachys returned to their Northeast Heights home last Friday after a visit to Scottsbluff and Denver. Mr. and Mrs. Plachy and their family spent a weekend in Scottsbluff visiting Mr. and Mrs. Richard Liseke who are former Lincoln residents. From Scottsbluff they motored on to Denver where they were the guests of Mr. Plachy's brother-in-law and sister, Mr. and Mrs. Melvin Horn, and their daughter Melva Jean.

And with every snow flake that fell we'll wager the Rex Winders wished they were back in the beautiful Hawaiian Islands.

Mr. and Mrs. Winders returned to Lincoln last Wednesday after a month's vacation in California and Hawaii.

While in Calif., the Winders visited with their son and daughter-in-law, Mr. and Mrs. Leroy Weight and their family. From California, they flew to Hawaii and visited on the islands of Oahu and Kauai. According to Mrs. Winders they saw everything possible and the trip was more than they had anticipated.

Mr. and Mrs. Claude L. Tetherow were a host and hostess recently when they entertained the members of their monthly bridge club at their home.

On hand for the evening of bridge and a midnight supper were Mr. and Mrs. Boyd Ready, Mr. and Mrs. Rex Winders, Mr. and Mrs. Loren Bonneau, Lt. Col. and Mrs. Robert Culwell, and Mr. and Mrs. Jack Gouvoarts.

**NORTHEAST HEIGHTS**

There just seems to be no end to travelers during the last few months and not wanting to break the trend were Mr. and Mrs. Harold Plachy and their children Jenelle

Lindner of Lincoln.

This week's birthday honoree goes to Master Greg Pejsar, son of Dr. and Mrs. Gordon G. Pejsar, who celebrated his seventh anniversary with several members of his first grade class at Eastridge Grade School. The birthday was the event of February 27.

And still another member of the Pejsar household will celebrate a birthday soon. This time the honors will be for Doug who will be 5 years old on Saturday. Doug will be entertaining some of his neighborhood friends when his special day rolls around.

More travel news this

## The Amateur Decorator Must Learn 'Pro' Lingo

Most homeowners can develop sufficient good taste in color styling and attaining balance within rooms to be reasonably successful as do-it-yourself decorators. But too often the efforts of these decor-conscious amateur designers are foiled because they lack certain basic knowledge of decorating concepts and the use of modern-day materials.

To help them better understand the decorator's language and tools, the American Home Improvement Institute has compiled this dictionary of 13 key terms every homeowner should know to achieve success in interior decorating:

**BANQUETTE:** bench built-in along a wall; usually for sitting while dining.

**CHIPPENDALE:** type of furniture named for famous 18th century English designer; with graceful curved lines and pierced shell-work ornamentation.

**CLERESTORY:** in modern homes, a ribbon of windows

high along a wall.

**CORRELATED GROUPS:** describes furniture pieces not matching exactly, as in a "suite," but instead related through decorative themes repeated only on some pieces; for use in various rooms simultaneously to draw together overall interior motif of home.

**DIM TO BRIGHT**

**DIMMER:** device for dimming range of lighting intensity from dim to bright, rather than just on-and-off switch.

**ECLECTIC:** currently popular decorating technique of mixing furnishings from past and present periods and from various parts of the globe.

**HEPPLEWHITE:** type of furniture named for 18th century London cabinetmaker who popularized satinwood and delicate painted finishes.

**KAKEMONO:** oriental painting or print on unframed fabric usually with roller along bottom to keep it flat while hanging.

**MODULE:** standard measurement in furniture design, previously used only in architecture, which permits matching of same size pieces to achieve a built-in appearance.

**MORE DECORATIVE**

**OCCASIONAL FURNITURE:** tables and chairs in a motif different from the main furnishings in a setting, usually more decorative.

**PANELAIRE:** not solid paneling as name implies, but beautiful and inexpensive type of sculptured filigree openwork; popular as grillwork in room dividers, screens, built-ins, etc.

**PHYFE:** type of furniture named for early 19th century American cabinet-maker known for his styling of chairs with lyre-shaped backs and sofas with cornucopia-shaped legs.

**STORAGE WALL:** all or part of a wall containing built-in cabinets, drawers and bins for storage; very popular as a spacesaver.

## Oh Me, Oh My! How Things Will Change

week comes from Mr. and Mrs. Bruce B. Watt who will be returning today from a visit in Bloomfield, Iowa.

Mr. and Mrs. Watts motored to Bloomfield last weekend but business did not monopolize the entire time—there also was pleasure when they stopped to see Mr. Watt's sister, Miss Elma Watt.

Approximately 100 guests gathered at the Cypress Room at Tillman's last Sunday to honor Mr. and Mrs. Max Schneider on their anniversary.

It seems that the Schneiders' anniversary was yesterday but since some of their guests were from out of town they decided to hold it on Sunday.

A survey among leading interior decorators throughout the country shows the late '60s will usher in new

kinds of furnishings, appliances and new decorating materials and new ways to live with them.

**PUSH-BUTTON COOKING**

In the kitchen, for example, push-button meal preparation is on the horizon.

The homemaker will be able to dial the meal desired, from ingredients to cooking method. The food will be prepared, cooked electronically in seconds and apportioned on dishes ready for serving.

Kitchens will be made larger and a trend will develop to make this room as popular for entertaining and activities as the family room. Eating will be informal and game tables, hobby corners, comfortable furnishings and a variety of equipment for relaxation and recreation will be used.

**NEW THEATER ROOM'**

A new kind of room will be introduced—the "theater room." Here, as communications advances continue, families will have facilities

for watching TV from all over the world. At the flick of a switch, stereo recordings or special Hollywood movies will be available from libraries stocking them for entire communities.

The current popularity of textured materials such as floored wallpapers, embossed resilient floor tile, sculptured Panelaire filigree, raised-weave fabrics and three-dimensional wall decoration will continue.

## Bringing Up Baby

HINTS COLLECTED BY MRS. DAN GERBER, MOTHER OF 5

Even the most contented babies are sometimes beset by end-of-the-day crankiness. These out-of-sorts spells are often as much the result of boredom as of fatigue. A mother I know cures these cross-patch spells by providing a special social hour for her baby. There may be a game of peek-a-boo, a bit of knee dandling, a merry song or two. Another time there'll be a mother-baby gab-fest (any words or coos will do) or a 3-way romp with dad. Amazing how these family circle doings chase baby blues.

More cheer-up strategy. Babies brighten up when supper features a succulent Gerber Strained Meat, like Chicken, Beef or Ham. (Just 3 of 9 delightful varieties.) That's because the savory true-meat flavors have special baby-appeal. Made from selected Armour cuts, these quality meats are specially processed to remove most of the fat. For baby's nutritional build-up, Gerber Meats are high in protein . . . the big contributor to growth and muscle development.

# POINT BLANK

By Don Bryant  
Sports Editor, The Star

## Face Off, Jack

Phooey on that 50-mile hike stuff! I'd rather walk 50 miles than shovel a driveway full of wet snow any day.

It would have to snow hip deep — just when I had decided to start an intense physical fitness campaign. Now it will take me two weeks to get well enough to think about exercising again.

But I'm going to start — yes sir. It might snow again.

## Huskers Lead

Nebraska fans can spend at least a few days thumping their chests.

With 3 Big 8 events completed this year, the Cornhuskers are leading the field for all sports title.

While the Huskers don't figure to win it this year — they'll drop to 3rd in a hurry after the final basketball game — the fact that NU is atop the heap after cross country, football and indoor track is a remarkable improvement.

With points awarded to the corresponding finish in a sport (1 for first, etc.) Nebraska leads with 7 points, thanks to 3rd place windups in cross country and football, and a championship in track.

Following NU are Missouri 8, Kansas 9, Oklahoma 12, Colorado 12, Oklahoma State 18, Iowa State 20 and Kansas 22.

Nebraska to date has made the greatest improvement of any Big 8 school. Last year after the first 3 events, NU was lodged in 6th and wound up the year in 5th. Oklahoma State was the all sports championship, logging only 33½ points in the low-score-wins contest.

If the basketball windup goes according to form, NU could trail only Missouri and Colorado, despite an 8-point cellar finish.

Here's the way the Big 8 teams stack up after the first 3 loop championship are in the books:

	NU	MU	KU	OU	CU	OS	IS	KS	IS
Football	3	2	4	1	7	6	5	8	
Cross Country	3	4	2	5	1	7	8	6	
Indoor track	1	2	3	6	4	5	7	8	
Totals	7	8	9	12	12	18	20	22	

Here's the way the teams lined up at this stage of the 1961-62 all sports race:

	KU	CU	MU	OS	OU	NU	KS	IS
Football	2½	1	2½	6½	4	6½	8	5
Cross Country	1	2½	4	2½	6	7	5	8
Indoor track	1	6	5	3	5	2	7	7
Total	4½	9½	10½	12	15	15½	20	21

If Nebraska is to make the first division or challenge for first place, it will take considerable help from baseball, golf and tennis, in addition to outdoor track.

## Not Easy

The wrestling team will be hard-pressed to equal its 4th place finish a year ago, and the basketball team has already cinched a poorer finish.

Maybe the swimming team will help by bettering its 4th place windup last year — that is, if the NU tankmen can stay on the beach until scoring is official before celebrating.

Chances are Oklahoma State will repeat as all sports champ, however. The Cowboys are always going to be near the top in baseball, golf, tennis and wrestling.

Meanwhile, credit Nebraska with some mighty fine improvement.

## TONIGHT THE LAST

# Golden Gloves At End Of Line

Chicago (AP) — The Golden Gloves Tournament of Champions, a springboard to fistic fame for such graduates as Joe Louis, Barney Ross and current world heavyweight champion Sonny Liston, reaches the end of the trail Wednesday night.

Only surviving defending champion is Chicago's Rory O'Shea, fancy-boxing welterweight.

Probable crowd favorite will be Ron Marsh, a tough 180-pound Kansas University athlete, seeking the heavyweight title for his Kansas City squad. Marsh, a football guard and a diving star on Kansas' swim squad, has 3 rivals, all under 200 pounds.

The reason for the difference is this: AAU meets are usually held indoors where the target area is a wooden floor while the IC4A traditionally is staged on a dirt surface. In the case this week, a special dirt area is to be provided at the Garden.

So, should Gubner hit 65 feet this week-end, it cannot be considered an official indoor record but would have to be noted in the record books with an asterisk, Roger Maris home run style.

## Braves Schedule 17

The Milwaukee Braves have scheduled 17 exhibition games for their new spring training base at West Palm Beach, Fla.

HUSKER DIVER

Nebraska diver Chuck Levy will be in action for the Scarlet swimmers this weekend as the Huskers play host for the Big 8 swimming championships to be held at the Public Schools Activities Building pool.

There have been some great boxers mixing and mauling since the tourney started in 1928. One of the first to march from the wild-flailing Golden Gloves ranks to heights was the incomparable Barney Ross, 1929 Golden Gloves 126-pound titlist.

Then came Joe Louis, a poker-faced kid from Detroit, who was the 1934 tourney champion at 175 pounds, and the 1939 winner at 160 pounds, Ezzard Charles.

In 1940, the tourney produced two champions at 112 and 160 named Harold Dade and Joey Maxim.

A decade later, Bate Brooks came from Cleveland to win the 118-pound title and the next year, a surly heavyweight with a bombing left hand, Sonny Liston, blinks a new champion under the glaring stadium ring lights.

In 1959, Cassius Clay, the current poetic heavyweight sensation, gave Louisville the 175-pound crown. A year later, Clay came back to win the heavyweight title.

Nineteen cities will be represented on Wednesday night's program, with Detroit's 4 survivors setting the pace. Detroit leads Fort Worth, Tex., by a single point, 12 to 11, in the team title battle. A point is awarded for each bout won in the entire tourney.

Tied at 9 points each are

# UNI TAKES OPENER

Wednesday, March 6, 1963 The Lincoln Star 15

## Tutors Tally 53-30 Win

. . . AUBURN ALSO WINS

Favorite University High and dangerous Auburn reached semifinal play Tuesday night in the class B district basketball tournament at Nebraska Wesleyan.

The talented Tutors of Uni outclassed Ashland, 53-30, and Auburn dumped Syracuse, 55-48.

Tonight's semifinals send Plattsburgh against Fall City at 7 and Uni High against Auburn at 8:30.

The finals will be played at 8 Thursday night.

### Uni 53, Ashland 30

Coach Dale Snook's Tutors whipped outmanned Ashland despite the latter's slow-down tactics. Ashland led only once (21) before becoming Uni's 14th victim.

George Zarins and Steve Butts contributed all of Uni's 12 first quarter points. The smooth-working Zarins picked up second period help from Jim Butcher's 3 field goals. Zarins, meanwhile, was pushing through a pair of buckets.

Jerry Butcher led a 13-point 3rd stanza with 8 points as Snook began to substitute freely.

Uni, rated 5th in Class B, had 10 of its 12 cagers in the scoring column Tuesday.

Zarins' 15 led the way, followed by Jerry Butcher's 10 and Steve Butts' 9.

Mike Carpenter was Ashland's only threat with 12 points.

Auburn 55, Syracuse 48

Auburn outscored fading Syracuse 17-8 in the final quarter to clip the young Rockets.

Syracuse led 40-38 after 3

quarters and pushed its advantage to 42-38 with only seconds played in the final period.

But Auburn then tallied 9 straight points while Syracuse went scoreless and missed vital driving layup shots.

Down 47-42, Syracuse roared back to knot the score, 48-all with 2:07 to play. Another string of 7 free throws doomed this effort.

Syracuse had possession with 1:35 to play and the score deadlocked, 48-48. But a missed shot followed and Auburn stepped to the free throw line to sink two shots with 1:13 left, making it 50-48. Five free throws followed as Syracuse tried desperately to get the ball.

Ron King, a 6-1 senior, peppered in 27 points for Auburn. Tom Formanack led Syracuse with 17.

CINCY REMAINS ON TOP IN AP CAGE VOTING

By Associated Press

The fabled No. 1 jinx holds no terrors for Coach Ed Jucker as he points his top-ranked Cincinnati Bearcats for the approaching National Collegiate Basketball Tournament.

"We're not afraid of being No. 1—in fact, after 15 weeks at the spot we're sort of come to like it," Jucker said Tuesday. "We'd be jealous if anyone else tried to claim it."

This talk of the No. 1 ranking being a kiss of death is ridiculous. I think it came from the fact that Ohio State was No. 1 the last two years and then failed to win the tournament.

"Instead of making us tense and under pressure, the rating should make us play all the harder to prove we're worthy of it."

Cincinnati, which closed out its regular season with a 23-1 mark, topped The Associated Press' weekly poll for the 13th straight time Tuesday in the next-to-last balloting among a special panel of sports writers and broadcasters.

# David City Teams Win

## . . . IN CLASS B PLAY

Columbus — David City Aquinas staged a second half comeback to down Columbus St. Bonaventure, 58-48, in the Class B district here Tuesday night.

David City High had less trouble as Fullerton fell, 63-34.

St. Bonaventure raced to a 15-9 first period lead, but Aquinas netted 16 points in the second canto to pull within one at half, 26-25.

Aquinas potted 21 points to St. Bonaventure's 12 in the 3rd quarter to go ahead by 8 points entering the final period.

In the last stanza, the Columbus squad scored 10 but

## Jones Freed, But With Provisions

Chicago (P)—Charles (Deacon) Jones, track star in the 1956 and 1960 Olympic Games, was given a provisional release Tuesday on a charge of trespassing.

Judge Harry G. Comerford said he would dismiss the charge Sept. 27 provided Jones stays out of trouble in the meantime.

The 28-year-old Negro distance runner, a participant in the 1959 Pan-American games, was seized several days ago by police who said they saw him enter a parked car in Jackson Park and later run from the scene.

Jones is an alumnus of Boys Town.

## Hastings Cage Post To Smith

Hastings (P)—Jim Smith has been named to succeed Earl Applebee as head basketball coach at Hastings high school when Earl Applebee leaves the post to become head football coach in the fall.

Applebee will move into the grid job left open by the resignation of Ollie Smith.

Jim Smith has been assistant football and junior varsity coach. He has been with the Hastings school system since 1959. A graduate of Hastings College, he has been taking graduate work at Kearney State College.

## Terry Downes TKO's Beecham In 9th Round

London, (P)—Terry Downes, former co-holder of the world middleweight boxing title, stopped Jimmy Beecham of Miami, Fla., Tuesday night in the 9th round of a scheduled 10-round.

British referee Tommy Little stopped the fight as Downes chased the tiring American around the ring with a flurry of punches.

## Second Highest Series

Fern Adams rolled the second highest ladies' score for the winter leagues in Lincoln at the Plaza Bowl Tuesday night. She had games of 259-225-183 for a 667 series total. She bowls in the Plaza Classic League. Ruby Dill has a 669 series for high this season.

## CITY BASKETBALL

Men's — Meek Lumber 37, Draft Dodgers 30; Merlin's "66" 29, Family Drug 27; Bombers 49, First Presbyterian 43 (OT); 69ers 47, First Presbyterian 43; Showman's 57, Merlin's 53; Christian's 36, Shamrock 31; N.B.I. 57, Happy Hour 31; Lawlers 35, Barry's Bar 21; Ensigns 31; Lincoln School of Commerce 23. Girls — Vassar 11, State Farm 25-18, Officials 12-12; Walton 16-8-7; Dix 1 Belles 14-25-3.

APRIL 1963</p

# Rookies Hold Key To Indians' Hopes

... "JOBS ARE WIDE OPEN"

Tucson, Ariz. (AP) — Success of the Cleveland Indians in the 1963 American League baseball race depends on youngsters.

"Absolutely, the success of our club depends on how the kids come through," said general manager Gabe Paul Tuesday as he watched their spring training session. "At least two have to make it."

Three rookies in the Indian camp after great minor league seasons are 3rd baseman Max Alvis, shortstop Tony Martinez and outfielder Vic Davalillo.

## Most Attention

They get the most attention, but Paul says, "I've never seen jobs as wide open as on this club." Yet he doesn't call this a rebuilding year for a team that finished 6th a year ago and replaced manager Mel McGaha with Birge Tebbets.

"No," said Paul, "I wouldn't call this a building program. You go with kids only if they are the best available men for the jobs. You replace with individual parts."

"Baseball changes from day to day. For a young fellow

## NBA Scoring Battle

### Fixed On 3rd Place

New York (AP) — Oscar Robertson, Walt Bellamy and Bob Pettit are waging a private battle for 3rd place in the National Basketball Association's scoring race.

Wilt Chamberlain of the San Francisco Warriors is far in front with 3,230 points and a 44.9 average and Elgin Baylor of Los Angeles has second place sewed up with 2,455 points and his 34.1 average.

## can fill any one of several

jobs — shortstop, 3rd base or the outfield.

"Anything you do should be predicated on winning, and it's not fair to anybody if it is not predicated on winning."

"The only way to build a good solid ball club is to bring young fellows in and see what they can do."

## Refused Offers

The general manager said he had turned down offers for Woodie Held during the winter because the veteran

## Charity Pin Turnery To Benefit Zoo

Most bowlers don't fool around when rolling in league play but in April they can get into some monkey business—all for a good cause.

A city-wide charity bowling tournament was announced Tuesday by Parks Supt. Jim Ager with proceeds going to the Children's Zoo.

The dates will be April 14-20. The Junior Chamber of Commerce will be the sponsor.

There will be a daily cash prize for the 6 days of the tourney for men and women divisions plus a grand prize for the top weeklong performance in both divisions.

Prizes will be determined by the number of pins over a bowler's average and not by score plus handicap.

While the proceeds won't be used to buy a monkey—one of the many attractions of the new zoo, the money will be funneled into the Junior Chamber's zoo efforts, which principally is providing a \$35,000 train.

## Led League

Alvis whacked at a .319 clip for Salt Lake City in 1962 while the Venezuelan Davalillo led the International League hitters at Jacksonville with a .346 average. It was his first full season after being converted from pitcher to outfielder.

"He's an amazing fellow," observed Tebbets. "He looks like somebody's kid brother out there but he really hits with power."

Davalillo hits left-handed while both Alvis and Martinez are righthanded.

## Widener Has Big Year

George D. Widener, owner of Jaipur and Crewman, had his most successful turf year in 1962. His stable earned \$973,051, second best figure for the year.

## Rickey Seeking Switch-Hitting Cards

... 6 REDBIRDS INVOLVED IN EXPERIMENT

St. Petersburg, Fla. (AP) — For 6 hours every day of spring training 6 young men swing both right-handed and left-handed at the offerings of a machine that delivers 30 pitches every 5 minutes.

Watching over this strange experiment in concentrated hitting is Branch Rickey, 81-year-old grand old man of modern baseball, now back with the St. Louis Cardinals as a consultant. Mister Rickey, as everyone calls him, sits on a little platform directly back of the pitching machine, protected by a heavy net.

"No one before ever worked so many hours day after day on hitting," says Manager Johnny Keane of the Cardinals. "Whether this will produce real switch hitters, or change regular right-handed hitters into lefties we don't know but we are sure that in the end it will make for better hitters."

**Use Golf Gloves**

All the youngsters use golf gloves on both hands. Originally

Hasn't Taken

Gagliano hasn't taken to the efforts to switch him to left-handed hitting, and he probably won't be pressured to continue the experiment.

"Mister Rickey was going to turn Clemens and Kolb around to bat right-handed but their left-handed form is so good he didn't try," said Keane.

"The way I look at this experiment — it was Mister Rickey's idea, by the way —

I figure even if the right-handed batters go back to their old style they will be better hitters because now they know how it looks from the other side of the plate. And maybe we will even develop some good switch-hitters."

## Rickey Seeking Switch-Hitting Cards

Wednesday, March 6, 1963 The Lincoln Star 17

... 6 REDBIRDS INVOLVED IN EXPERIMENT

St. Petersburg, Fla. (AP) — For 6 hours every day of spring training 6 young men swing both right-handed and left-handed at the offerings of a machine that delivers 30 pitches every 5 minutes.

Watching over this strange experiment in concentrated hitting is Branch Rickey, 81-year-old grand old man of modern baseball, now back with the St. Louis Cardinals as a consultant. Mister Rickey, as everyone calls him, sits on a little platform directly back of the pitching machine, protected by a heavy net.

"It is significant that most switch hitters in baseball are good ones. Wills and Mickey Mantle are pretty conspicuous examples."

**Big Advantage**

"Batting left-handed gives a man a tremendous advantage. He is a full stride or more ahead of a right-handed batter. Even the momentum of the bat carries him toward first and not away from it as is the case with a right-handed batter."

"When you think of the number of plays at first that are decided by less than a stride you can see how important this is. I've wanted our second baseman, Julian Javier, to switch over to batting left. With his tremendous speed he could beat our weak hits that would be ours for anyone else."

"The way I look at this experiment — it was Mister Rickey's idea, by the way —

## Demo Leaders Hit Budget Cut Claims

Washington (UPI) — Democratic congressional leaders Tuesday attacked as "wild" and "illogical" Republican claims that \$10-\$15 billion can be cut from President Kennedy's fiscal program without harm to the country.

Fresh from a legislative meeting with the President, the Democrats challenged the GOP to submit a bill of particulars for its proposed cut. Sen. Hubert H. Humphrey, D-Minn., said "these prophets of yesterday should tell us what they plan for tomorrow."

"They have a clever game going — be tough on Khrushchev, tough on Castro, tough on Kennedy," Humphrey said. "The more belligerent they become on Cuba the more economic they become on defense."

He also said the Republicans would be "coming out against people" if they planned big reductions in domestic programs.

Rep. Frank T. Bow, R-Ohio, chairman of the Republican Task Force on Economy, shot back that "we have the bill of particulars prepared—and as any good lawyer does, we will file it when it is most appropriate." Bow said: "If trying to bring about fiscal responsibility is political, then we are political."

SOVIET INTOURIST OFFICE . . . rocked by explosion.

## Ex-Nazi To Be Tried For Killing Retarded

Frankfurt, Germany (UPI) — Reinhold Vorberg, first ex-Nazi extradited by Spain, arrived here Tuesday to stand trial for the "mercy deaths" of 100,000 mentally retarded persons under Adolf Hitler's master race program.

Spain specified that no death sentence be imposed.

Vorberg was a section chief in Hitler's Reich Chancellery during the war and is con-

sidered one of the originators of the infamous euthanasia program for mass extermination of the mentally retarded. He hid out after the war by changing his first name to "Heinz" and moving to Bonn.

Two years ago, when West

German authorities began to investigate the euthanasia killings, Vorberg suddenly disappeared from his home. He turned up last spring in Barcelona, where he was arrested by Spanish authorities upon German request.

Prof. Werner Heyde, accused of being the chief executioner of the euthanasia program, was arrested last spring. He and others connected with the program are to be tried in Limburg this summer. The Frankfurt Prosecutor's Office said Vorberg probably will be tried separately later.

Spain had extradited com-

mon criminals before but never an ex-Nazi.

## BOMB HITS RED OFFICE IN W. BERLIN

Berlin (UPI) — A bomb exploded in the Soviet "Intourist" Travel Bureau office in West Berlin Tuesday night, shattering its showcase windows and destroying the interior, according to Western police.

They said no one appeared to be injured by the blast and that there was no clue as to who set it off.

The bomb exploded at 11 p.m. as West Berliners were leaving movie houses in the nearby Kurfuerstendamm section of the divided city. The state-owned travel office is located on the ground floor of a modern apartment house on Olivaer Square.

Hundreds of curious spectators gathered to watch as fire engines and police cars raced to the scene. Police said the modern interior of the office was in a state of chaos with furniture destroyed and debris scattered everywhere by the explosion.

## British Conservatives Win Approval Of Unified Defense

London (AP) — Britain's Conservative government Tuesday night won parliamentary approval of a unified defense command despite Laborite charges that it was a maneuver to divert attention from the "Skybolt" fiasco.

The House of Commons rejected 333-237 a Labor no-confidence motion along straight party lines. The plan for re-

organizing the 3 armed services under one coordinated command was then endorsed 323-237.

Patrick Gordon-Walker, Labor defense spokesman, had argued Britain could best help NATO by improving its own conventional forces and scrapping Britain's nuclear arms.

He charged the government's new plan was merely to cover up the "Skybolt" fiasco after the United States announced abandonment of the missile.

Defense Minister Peter Thorneycroft replied that Britain's policy now is based on a nuclear deterrent, to be supplemented late in the decade by Polaris submarines built with U.S. help.

Thorneycroft said Labor assumed that if Britain is threatened an ally will be ready to help in its defense.

"I believe they are right, but it is a huge assumption to make," he said.

Challenged

Thorneycroft challenged the opposition to say it would be possible to beat back a major Soviet attack on Western Europe without nuclear weapons.

"The truth is that a proper defense policy has got to be based on a balance of both nuclear and conventional forces in Europe. That certainly is our policy," he asserted.

He said Labor had failed to put forward any alternative policy "or are fearful of doing so."

## Mine Strike Is Effective In Big Challenge

Paris (AP) — The strike in the coal mines of France was almost 100% effective Tuesday in labor's first big challenge to President Charles de Gaulle's authority.

Hundreds of thousands of workers in other industries backed the miners with symbolic, 15-minute walkouts. De Gaulle met with key cabinet members but apparently withheld any action.

Many of the nation's miners began a test of strength with the government Monday by refusing to obey an official order to report for work. The defiance spread Tuesday to the big northern fields, which employ about half the nation's 200,000 miners. These fields had Monday off.

There was nothing to indicate a quick end to the strike. Both government and unions cautiously voiced the hope that talks for a settlement will start soon.

He said Labor had failed to put forward any alternative policy "or are fearful of doing so."

## Tornado Smashes Alabama Town

Bessemer, Ala. (UPI) — A tornado darted into a business section near the center of town Tuesday, shattering buildings and whipping a stunt man atop a 40-foot pole like a fly rod.

At least 12 persons were hospitalized here and in nearby Birmingham and Bessemer Mayor Jess Lanier, who called for National Guardsmen to help prevent looting, estimated conservatively that the damage will run "into the millions."

Streets in the business section and in outlying residential areas — where scores of homes were destroyed — were dark as night fell because of fallen power lines.

Collapsed buildings — mostly small stores — in a two-block area about 4 blocks from the center of Bessemer was searched for other possible victims of the twister that struck suddenly at Mid-afternoon from a squall line sweeping across Alabama toward Georgia.

A tornado also struck the small north Georgia commun-

ity of Cave Springs Tuesday night, injuring two persons and ripping the roof off a church.

Cave Springs residents said the twister lasted two minutes and blew porches off several houses and uprooted trees, knocking one tree against a power line that threw a portion of the town into darkness.

One resident, Milt Sweeney, was injured when his porch crashed down on him, and another, Curtis Myers, was injured when part of his barn collapsed.

At Bessemer, Marshall Col- lins rode out the tornadic winds in a small house atop a 40-foot pole on the edge of the heaviest hit area.

Collins, an employee of a local radio station (WYAM), was perched on the pole in a promotion stunt.

75 Homes Hit

The Red Cross said its initial reports from residential areas indicated that 75 to 100 homes were "completely or almost completely destroyed."

Fashionable homes in the

# Stock Market Is Irregular

New York (UPI) — The stock market pursued an irregular course Tuesday as trading continued to dwindle.

Volume settled back to 3.29 million shares from 3.65 million Monday.

Changes of most key stocks were fractional or none as stock made a move of a point or so.

The market was plainly lacking in incentive to move sharply in either direction. The advance of the previous day, while not large, was accompanied by such dull trading that it gave no portents of a strong recovery move.

The Dow Jones industrial average gained 12 at 667.16.

KTFB-TV News, *Nightwatch*, Press average of 60 stocks dropped 12 at 553.9 with gains down 5, gains down 3, and utilities up 3.

Of 1,276 issues traded, firms unclaimed gainers by 546 to 449. New highs for 1962-63 totaled 12 and new lows 4.

Among the 15 most active stocks, gains were even at 5 each while three were unchanged.

Prices were mixed on the American Stock Exchange. Volume was 730,000 and compared with 910,000 Monday.

Government bonds were irregularly higher.

## MARKETS AT GLANCE

**New York (UPI)** — Stocks — Higher; slow trading.

**Bonds** — Higher; rails advance.

**Cotton** — Mostly lower; commission house selling.

## 'Unwritten Agreement Started Crossroads'

W. D. Ray, former president of Third Recon Corp., Tuesday testified that construction of Crossroads Motor Hotel at 10th and O was commenced on a verbal agreement between himself and the late George L. Williams of Kansas City, Mo.

Ray testified during a hearing being conducted by Clarence A. Davis, trustee for Third Recon, a debtor corporation undergoing reorganization.

## Governor's Post Closer For Rolvaag

St. Paul, Minn. (P)—Democrat Karl Rolvaag inched nearer the Minnesota governorship Tuesday. Republican Gov. Elmer I. Andersen clung to only the slimmest mathematical chance of catching up.

With only about 120 ballots left for a special 3-judge court to rule on, Rolvaag was maintaining a 74-vote margin.

These 120 ballots were believed split fairly evenly between the two candidates. It appeared the court would have to count virtually all Andersen ballots and convert many of the Rolvaag ballots to Andersen—an unlikely procedure—for the Republican incumbent to win.

The court has been ruling on disputed ballots as the trial proceeded. But its official findings and determination of the winner will have to await final arguments and its own decision when all evidence is in.

Rolvaag backers talked like winners, but Tom Swain, the governor's recount director, refused even to talk about a possible concession.

## Warning! Emergency Number Goof

Lincolnites are warned to check any listing of emergency numbers which they might have received in the past few months to determine whether the telephone numbers listed for the Police and Fire Departments are correct.

An advertisement mailing by a local firm included an "Emergency Call" gummed sticker for placement near the telephone which listed both police and fire department numbers incorrectly.

The errors occurred in the prefixes of the phone numbers, with the Fire Department number listed as 472-2222 instead of the correct 432-2222, and the police telephone listed as 475-4000 instead of 435-4000.

Fortunately . . .

Lincoln Telephone & Telegraph Co. officials, notified of the error by The Star, reported that fortunately the public could call the erroneous numbers and still reach the police and fire departments at present because the erroneous "7" number in the prefix will not be in use until Dec. 1, 1963.

After that date, officials warn, the incorrect numbers pose a serious threat because both emergency numbers are often dialed when immediate aid is sought, and the delay caused by a wrong number could result in serious injury, death or property damage.

The LT&T spokesman said that the firm has been notified to stop any further circulation of the erroneous listings.

## More Australia Cars

Canberra (P)—Australia's new motor vehicle registrations totaled 323,246 in 1962, a 36% jump over 1961, the government reports.

## Ex-Nebraskan, Woman Slain; Lover's Triangle Is Blamed

St. Louis (P)—Two persons, one a former Omaha, were killed Tuesday in northwest St. Louis County by a man wielding a .38 pistol and driving a white station wagon.

The victims are Dennis Edmond Sass, 30, of St. Louis, formerly of Omaha, and Catherine Mills, 32, of suburban Glasgow village. Sass was a stereotyper for the St. Louis Post-Dispatch. He formerly worked as a stereotyper for the Omaha World-Herald.

Officers are searching for a man identified as Arthur Rodger Aubuchon, 33, of suburban Calverton Park in connection with the shooting.

County police said it appeared the double-murder

zation proceedings in U.S. District Court.

Third Recon, with paid-in capital stock of \$600, is owner of the 92-room luxury motor hotel and Patio Bank drive-in facility, against which a mortgage and debt claims total some \$1.9 million.

Mr. Williams agreed that W. D. Ray & Co. would do the construction work at cost plus 10% for overhead and profit, according to Ray.

After Mr. Williams' death, Third Recon authorized a written contract with W. D. Ray & Co. to construct the hotel for \$975,000 less money already paid, according to testimony regarding corporation minutes of December 1961.

Ray testified Third Recon, of which he was president and a principal stockholder, delivered a "lot of change orders" during construction.

**Records Whereabouts**

Examined regarding whereabouts of corporation records, Ray said "4 or 5 sizeable boxes of records" were given to bellboys to take to the Crossroads after the Third Recon Corp. was sold.

"I didn't call the bellmen," Ray said. "They were sent across the street to my office to pick up the records."

Ray was president and sole stockholder of Third Recon from August 1961 until March 1962 when he assigned the outstanding shares to Wilson M. Williams and First National Bank of Kansas City, trustee for the George L. Williams estate.

In May 1962, Third Recon filed as a debtor corporation for reorganization in Federal Court.

**Shedding Light**

During the hearing, Davis said he was attempting to shed some light on the corporation's history and financial affairs.

"There are many gaps," he commented. "Some we may not be able to fill in."

Ray is to testify further regarding Third Recon's corporate affairs when hearing resumes Wednesday. Other witnesses may be called.

The hearing was attended by a number of attorneys representing various mortgage-holders and creditors of Third Recon.

## Heyne Named Group's Head

In the Nebraska State Dairymen's Association annual election of officers Willard Heyne of Uehling was named president. Other officers: Eugene Flynn of Blair, vice president; C. W. Nibler of Lincoln, secretary; T. A. Evans of Lincoln, assistant secretary and Orrill Rasmussen of Lincoln, treasurer.

Directors are Clair Wiltse, Lyons; Don Egger, Roca; Robert Koehler, Fremont; Lawrence Liebers, Lincoln; Stanley Johnson, Oakland; Robert Nauman, Lincoln; Earl Rottler, Norfolk; T. H. Kelley, Lincoln; Dave Graham, Omaha; R. H. Cole, Lincoln; Trenton Smith, West Point; Leroy Ficke, Milford; and S. H. Rasey, Omaha.

## Anti-Plane Guns Have Been Placed In Cuba Buildings

Miami, Fla. (P)—Anti-aircraft weapons have been placed in tall buildings throughout Cuba and on top of 60 or 70 hills, an underground report said Tuesday.

Holes about 10 feet deep have been dug in the hilltops for the emplacements, said the report, released by Luis Conte Aguero, head of the Christian anti-Communist front. Each has an electric plant, the information added.

The holes have been covered and trees planted on top to conceal them, the report said.

## Lincoln's Robberies Jump 129%

Robberies took a 128.6% spurt in Lincoln last year.

According to the FBI's preliminary annual crime report for 1962, there were 16 robberies in the Capital City in 1962—up from 7 in 1961.

Robbery was one of 5 categories where Lincoln's crime rate increased, but in two other classifications—including murder—the city's crime showed a downturn.

### Sharpest Drop

The 400% drop in murder was the sharpest—from 5 in 1961 to one in 1962.

In other cities in Lincoln's population range, murder increased 6% and robbery only 2%. The other cities showed an aggregate increase in the other 5 crime categories.

In Lincoln, forcible rape went up 50% from 6 in 1961 to 9 in 1962, aggravated assault up 52.5% (31 in 1961, 50 in 1962), burglary up 18% (341 in 1961, 416 in 1962), and auto theft down 12.2% (138 in 1961, 123 in 1962).

Similar cities fared this way in 1962—forcible rape up 14%, aggravated assault up 6%, burglary up 6%, larceny over \$50 up 7%, and auto theft up 8%.

## Dockmen See Anastasio's Procession

New York (P)—Stevedoring gangs stood in silent tribute along the Brooklyn waterfront Tuesday as Anthony (tough Tony) Anastasio, who ruled the Brooklyn docks, was carried to his grave in a solid bronze casket.

The Longshoremen had to take quite a long time from work to see Tony's Funeral cortège pass by, for behind the hearse were 12 coaches carrying flowers and 40 limousines transporting relatives and friends to the cemetery.

Anastasio's funeral procession was one of the most elaborate seen here since the heyday of gangsters like his late brother, Albert, who once reigned as executioner for the Murder, Inc., Gang.

Anthony Anastasio, who died following a heart attack commanded the Brooklyn waterfront through his jobs as business agent of Local 1814 of the International Longshoremen's Association and 23rd international vice president of the ILA.

Holes about 10 feet deep have been dug in the hilltops for the emplacements, said the report, released by Luis Conte Aguero, head of the Christian anti-Communist front. Each has an electric plant, the information added.

The holes have been covered and trees planted on top to conceal them, the report said.

## DRUNK'S CALL USED TO PHONE GOV. ANDERSON

Emporia, Kan. (P)—Early Sunday, two highway patrolmen arrested a man on charges of driving while under the influence of intoxicating liquor and with a revoked drivers license.

At the Emporia Police Station, the man was told he could make a telephone call before being placed in jail. Such calls usually are made to get legal counsel.

The man picked up the phone and placed a call to Gov. John Anderson, much to the surprise of everybody. The time was 4 a.m. The call went through.

It might have been a coincidence, but Monday the governor renewed his campaign before the legislature for stiff treatment of drinking drivers, including a mandatory jail sentence.

Sass was shot in the head as he sat in his car in front of Mrs. Mills' home. Officers said she apparently heard the shot, came out to investigate, and when she approached the auto also was hit in the head with a .38 slug.

County police found Mrs. Mills' children, two daughters aged 14 and 8, unharmed in the house.

## Income Tax Revisions Ready For Submission

A revised version of the proposed state income tax bill, LB612, has been prepared by Sen. Kenneth Bowen of Red Cloud for submission to the Revenue Committee at its public hearing March 14.

The 4-page bill knocks out provisions for a fixed 2.15% rate, substituting authority for a flexible rate to be determined by the State Board of Equalization and Assessment in an amount necessary to raise funds sufficient to meet legislative appropriations.

The tax would become operative Jan. 1, 1965.

Taxable income under the bill would mean adjusted gross income as determined under the Internal Revenue Code of 1954 and amendments thereto as of Jan. 1, 1963.

To that basic definition would be added:

★ ★ ★

## 'Farmers Will Reap Benefits From Proposed Income Tax'

Sen. Kenneth L. Bowen of Red Cloud said Tuesday he informed State Agricultural Director Pearle Finigan this week that the proposed state income tax would greatly benefit Nebraska farmers.

Bowen headed the Legislative Council Tax Study Committee during the interim and

is principal sponsor of tax measures recommended as a result of the comprehensive study.

The Red Cloud senator said he visited with Finigan to discuss how the proposed income tax legislation would affect farmers and farm income.

### Rigid Property Tax

"In years of drought and declining prices the Nebraska farmer has still been faced with a continuing high tax on his property despite a low income," Bowen said.

"The proposed income tax would bring more equity between farmers and farm machinery dealers and others actively engaged in agriculture."

Nebraska has an increasing number of retired farmers who rely on a fixed income and the proposed income tax would ease the property tax burden these farmers have had to carry through their more active years," Bowen said.

Nebraskans do not realize that 22% of the rural population who receive 13% of the state's income pay 51% of the state taxes," Bowen said.

"It is time," he said, "to take a forward step and equalize the tax burden on the basis of the ability to pay."

Hearing on the income tax bill has been set for March 14.

## State Disapproves Inman, Liberty High Schools

The State Board of Education voted 4-0 Tuesday to disapprove Inman High School in Holt County and Liberty High School in Gage County.

Disapproved because they failed to meet minimum rules and regulations set by the board, the schools will not be able to collect free high school tuition and will lose their exemption from this levy for the 1963-64 school year.

This financial situation usually forces a school to close.

Any school which has 5 deviations from the minimum rules and regulations is subject to being disapproved. Inman had 6, and Liberty 8.

**Scholarship Vs. Sports**

Inman was the scene of a hot dispute last fall between parents and teachers when the school decided to place greater emphasis on its aca-

demic training than its athletic program. The controversy resulted in the school's closing down for several weeks.

Chief spokesman for the group was S. H. Brauer Jr., secretary of the Nebras-

ka School Improvement Association, who called the board's policy "discriminatory and unfair."

The board agreed to study the proposal and attempt to reach a decision by its next

### CENTERS IN WESTERN NEBRASKA NEEDED FOR TRAINABLES' CARE

Indications are that centers for trainable retarded children will be needed if such youngsters in the western two-thirds of the state are to be cared for, the State Board of Education was informed Tuesday in a progress report on the Cozad school.

The Nebraska School for Trainable Children at Cozad now has 30 youngsters.

The report said there are from 1,027 to 2,110 severely

retarded children between ages 5 and 21 who are eligible for programs for trainables in Nebraska counties.

The report said it is still difficult to determine the effectiveness of training retarded youngsters at Cozad and in special programs on the local level. This is because "there is a lack of external criteria for comparisons and control," the report said.

meeting April 2.

Class VI districts offer education for the 9th through 12th grades, and are superimposed over a number of Class I districts offering classes from kindergarten through the 8th grades.

Board member Frank Heinisch of Omaha disputed Brauer's contention that Class VI districts would help rural education, and argued in favor of the formation of K-12 districts as the means of attaining progress in education.

Bauer reacted favorably to a suggestion from board member Frank Landis of Lincoln that a solution might be the creation of combined junior and senior high districts for which a bill has been introduced in the Legislature.

Brauer said he felt the USIA would support it provided it was not mandatory.
